Mr. Shashank Deshpande
Lemonade Software Developers
Solapur

Subject : Request for accommodating our BCA students for doing their final year project work in your company

Dear Sir

We are one of the leading Educational Institute in Solapur. We belong to S.P. Mandali Pune, having rich culture of more than 140 years. In our institute we run M.B.A, B.B.A and B.C.A courses. B.C.A. final year students are expected to do a project. To gain the industry learning experience, we encourage our students to do the project in company. Hence we request you to accommodate our students in your company for one month project development as per your suitable form. The list of students is as follows.

Sr.No.	Name of the Student
1	Mr. Shaikh Shahid
2	Mr. Habib Harshal
3	Mr. Mujawar Mrutuz
4	Mr. Kalshetti Samarth
5	Mr. Patel Affan
6	Miss. Rakate Vaishnavi
7	Miss. Bronkhrust Teresa
8	Mr. Suttraway Madhav
9	Miss. Hiremath Prajakta

We look forward to have more associations with your company in future.

Thanking You

Yours

Received

Visit to Shrujan Foods Ltd. Chincholli MIDC Solapur

Visit Organized By: Centre for Startup and Entrepreneurship Cell of KPMIM

Category of Participant: MBA

Name of Speaker- Mr. Kambale

Date of Event: 2th June 2022

Mode- Offline

Nature of activity – A talk with Mr. Kambale Deputy HR head and visit to Parle subcontracting unit.

Time: 10am to 1pm

Number of Participant: 20 students

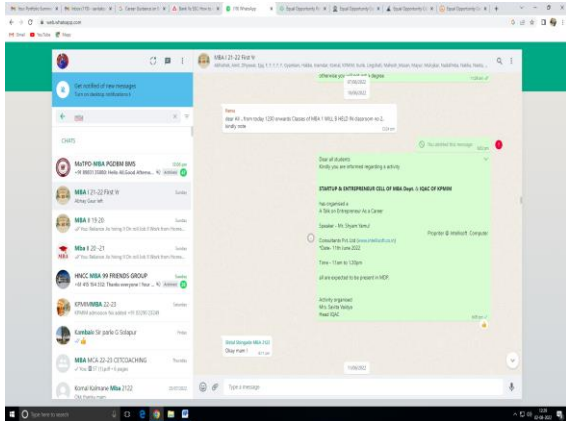

Activity Coordinator- Mrs. Savita P. Vaidya & Mrs. Neetta Kulkarni

Activity Report

Mr Kamble unit head of Shrujan food showed the Parle-G video at their Conference Hall latter he took to visit of a manufacturing unit and explained the process in detail.

SRUJAN FOODS PRIVATE LIMITED is an Indian company incorporated on 01/09/2004 and its registered office address is PLOT NO D8,,M I D C, CHINCHOLI,PUNE ROAD, Solapur, Maharashtra, Shrujan food is a subcontracting unit of Parle-G in the Solapur. only Parle G and Monaco biscuits are a manufactured here. The company provides raw material and all chemical composition of adough required to prepare a biscuits. On the basis of demand and supply the company plan the production schedule, the raw material is supplied from Mumbai ,the company person at Solapur check the quality of the raw material and allow it for manufacturing biscuits. The manufacturing of biscuits follows kneading of the raw material, cutting into the shapes then baking and then drying then packaging into various sizes. At Srujan food 70% are female employees as their more efficient as men. At Shrujan food health checkup, benefits of ESR and scholarship to employees children is provided. As the biscuit baking process requires more temperature Srujan take care of its employees by installing fans and ventilators and exhaust fans at the base level of manufacturing unit.As Srujan manufacturers biscuits they take care of all hygienic conditions the machineries are repaired & maintained on every Wednesday The west biscuits are burnt in the back side of the factory to award food poisoning to human

being and animals the factory has separate wastewater treatment plant at their backside of the unit. Students enjoy this visit by asking a lot of question. Vote of thanks is proposed by Mrs. Savita Vaidya

Industrial Visit to Precision Camshaft Ltd.

Event Organized By: Centre for Startup and Entrepreneurship Cell of KPMIM

Category of Participant: MBA

Name of Speaker- Mr. Sandeep Pichake Public Relation Officer at

Date of Event: 2th June 2022

Nature of activity – A talk and bakery visit

Time: 10am to 1pm

Mode- Offline

Number of Participant: 20 students

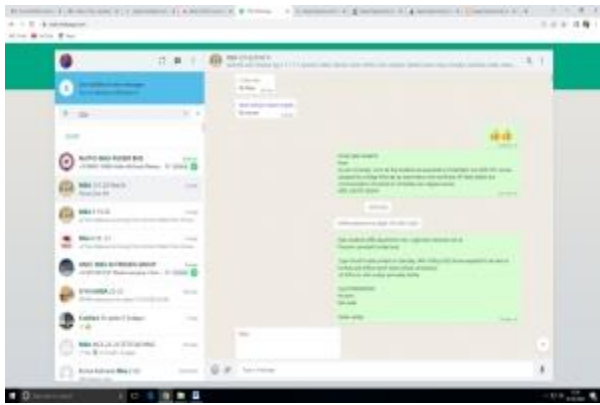

Activity Coordinator- Mrs. Savita P. Vaidya
Mr.Santosh Kulkarni

Activity Report

To motivate the entrepreneur courage the industrial visit has been organised to one of the best and biggest unit in Solapur that is Precision Camshaft who has started a journey with a very small forging unit at Ashra MIDC currently. The owner Mr. Yatin Shah is MBA graduate from Solapur who had started this journey with his team. Precision is exporting it's camshaft to various companies like Benz Maruti Suzuki Tata Motors Indian Railway Kiya Audi Renault escort Hyudai. Under the able leadership of Mr Yatin Shah the company has started its journey from 1992 to 2020 with a mission to be a market leader in camshaft manufacturing. The team Precision believed in manufacturing of quality camshaft with minimum rejection and error than the projected one. The plant is fully equipped with highly automatic machineries and well trained staff they mainly focus on training of this staff. As a corporate responsibility they have donated computers solar systems to the nearby ZP schools they provide all the security health checkup to their employees. Their Future plan is to manufacture vehicles on battery currently they have given 6 vehicles to Municipal Corporation Solapur which are under test. In all 2500 employees are working in three shapes with precision camshaft.

Mr. Sandeep pichke PRO of Precision camshaft has made this visit successful by showing a video on manufacturing of camshaft at their Conference Hall. The unit head Mr. Birajdar has explained the procedure and various Technological aspects of camshaft manufacturing in detail.

The vote of thanks is proposed by Mr. Santosh Kulkarni.

Activity Report

To inculcate entrepreneur spirit, visit to small unit of a bakery nearby railway station is arranged .The visit was planned on 2nd June 2022 at 10:00 a.m. The owner Mr. Dhananjay has explained enter process or manufacturing of bun pastries ,Kharries and bread .The Bakery is 80 years old started by his grandfather , Mr Dhananjay has shifted manufacturing process to machines he has 50 kg kneading machine, and 64 folding kharry machine the breads are sliced through automated bread slicer and packed manually .The baking is done throw two ovens which operate on power and diesel .

After study the demand for pastries and cakes five years back he has started a cake manufacturing with variety of flavors like Vanilla, rabdi , chocolate, pineapple ,BlackBerry & custard apple the motive behind his businesses is to manufacture all bakery items without chemicals. He schedule manufacturing for a day only .he does not hold inventory of finished products.

After the sad dismiss of his father and brother he learnt Bakery business. He also worked as a worker with various bakeries in Kolhapur & Pune to learn the actual expertise of bakery items. Being this is a family business and lot of competition it is a big challenge to operate in profitable. As consumer test and preference are changing continuously he believed in offering chemical free product to the consumers. He offered in a innovative product first time in Solapur like dabeli bun , wheat bread &wheat pizza base.

Visit to Manu Alloys and Casting Pvt. Ltd.Chincholli MIDC Solapur

Event Organized By: Centre for Startup and Entrepreneurship Cell of KPMIM

Category of Participant: MBA

Date of Event- 13th May 2022 Nature of activity – A talk and Visit to casting Unit

Time: 12.30pm to 2pm Mode- Offline

**Number of Participant: 20 students Activity Coordinator- Mrs. Savita P. Vaidya
Mr.Santosh Kulkarni**

Activity Report

Manu Alloys and Castings, is one of India's leading manufacturers and suppliers of Ferrous and Non-Ferrous valve castings and machinery components. **Manu Alloys offers a wide range of steel and stainless steel castings, specializing in WCB "CF8, CF 8M, CF3, CF 3M" and the non-ferrous alloys particularly in Nickel Aluminum Bronze (Naval Specs) along with all grades of Gun Metals. In both these categories, we make valve castings – Butterfly Valve, Body and Disc, Ball Valve, Body and Adaptor, Globe Valve and Wear plates with a monthly capacity to manufacture 80 MT Ferrous & 10 to 15 MT Non Ferrous castings.** The company which has grown strategically today offers finished products such as Aluminum Bronze AB1 / AB2 (BS 1400 / ASTM B148 / NAVAL Specs), Phosphor Bronze- PB1/ PB2 / PB3/ PB4, Gumetal, LG series, DIN series, All ASTM Duplex Steel Grades and Austenitic Steel (CF3M). In a nutshell they are a one-stop shop for all casting products up to 120 Kg single piece casting.

The unit head of Manu Alloy Mr. Kulkarni has thoroughly explained how the ferrous and non ferrous castings are prepared as per the customer requirements the designs are taken by the customer and at Manu alloy casting is done before boring the temperature of material play a very Vital role otherwise there may be problems in the quality the rejected materials are again recycled non fears castings are used by shipping Industries specifically the customers of Manu alloy are Forbes Marshall Meson valves India Private Limited Koel Khadki Private Limited.

He also explain various computerized machines which checks the quality of casting which works like a X-ray machine.

The vote of thanks is proposed by Mr Abhishek Deshpande. Student enjoyed this visit because they have seen the actual casting process and hot iron.

Activity Report

Founded in 2003, LinkedIn connects the world's professionals to make them more productive and successful. With more than 830 million members worldwide, including executives from every Fortune 500 company, LinkedIn is the world's largest professional network.

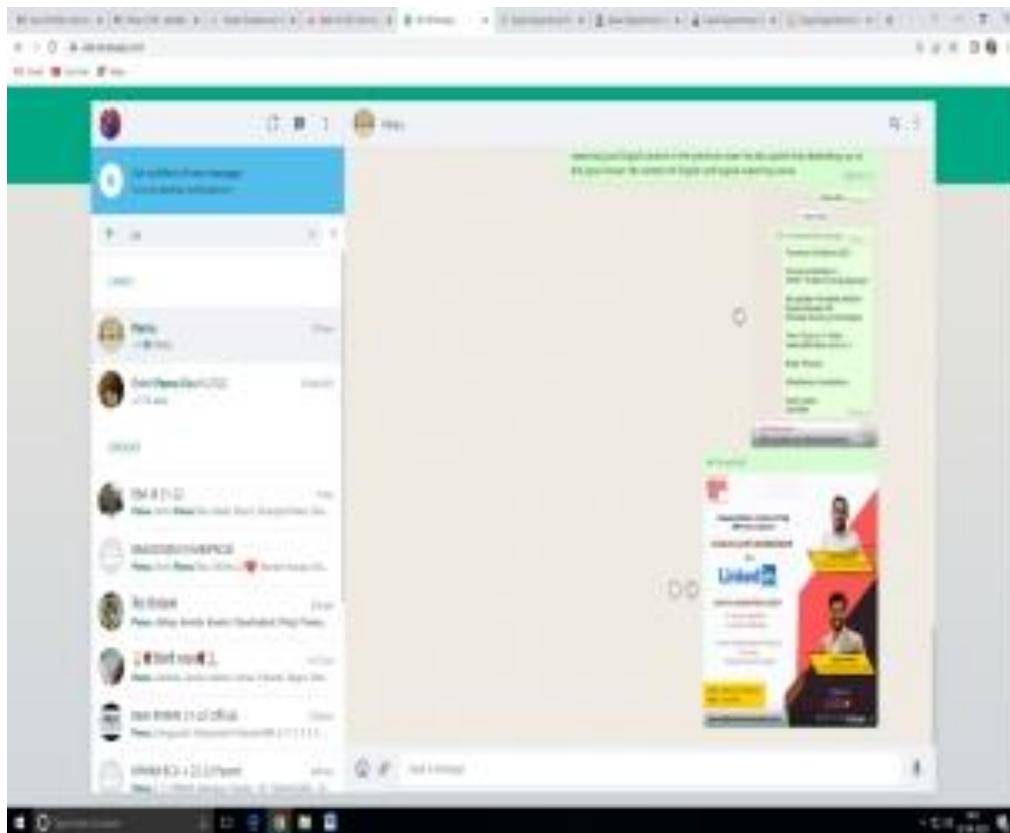

On the 6th June Mr. Sachin Kodmur has given insight how to use LinkedIn effectively to get job. He spoke about how LinkedIn can be used to create effective profile on LinkedIn how to get connected with various professionals on the LinkedIn learning LinkedIn recruiter how one can advertise on LinkedIn how to be associated with various groups on LinkedIn how to search with appropriate even LinkedIn can be used for B2B marketing how to get and give the recommendations these all tools related to linked ins are very important which make the student tax saving and offer variety of job opportunities on the online platform

On 7th June 2022 Mr. Kathwate Pratik spoke about 14 ways to use LinkedIn to get a job

1. Keep your profile up to date	8. Use the Advanced Search.
---------------------------------	-----------------------------

2. Be comprehensive about current skills and objectives.	9. Ask for an introduction.
3. Highlight recent experience.	10. Look for alumni associated with your college or university
4. Update your headline.	11. Be more than a wallflower.
5. Let people know you're available.	12. Get involved in LinkedIn Professional Groups.
6. Build your network to the 1st degree.	13. Research your future boss and executive team.
7. Research the companies you're interested in and follow them.	14. Network after business hours.

Outcome- around 45 students have opened account and updated their profile on Linked In

Workshop on Career

Event Organized By: Centre for Startup and Entrepreneurship cell of KPMIM

Category of Participant: MBA

Name of Speaker- Mr. Sandeep Kapase, Proprieter at RASAYANA OIL, Madha

Date of Event: 4th June 2022

Nature of activity – A talk and discussion

Time: 2.30pm to 3.30pm)

Mode- Offline

Number of Participant: 20 students

Activity Coordinator- Mrs. Savita P. Vaidya
Mrs. Neetta Kulkarni

Activity Report

Mr. Sandeep Kapase is basically completed his engineering in Mechanical at Talegaon Pune after his education he joined sells department of Maruti Suzuki and lighter he shifted to Nexus cells department after 2 years of it survey he has not to continue a job and instead to start his own business lot of innovative ideas came to his mind and finally he found a gap in the food industry that cold press edible oil is not available in the market at compare to branded one he did lot of market research and traveled for 12000 km he spoke to various people manufacturing from traditional cold press method.

With the family support he started cold press edible oil unit at Vairag Road Mada in the initial stage he worked on Packaging of edible oil and also on the branding to widen the consumer base he continuously council and communicated importance of cold press oil. Currently he has peanut coconut sunflower Sesame and mustard oil at his unit. He branded is cold press oil as a Rahasya. He is very loyal to his business he assured customer that he will offer only 100% Palm free Lakdi Ghana oil he is also selling on the bulk to the hotels and restaurants she also spoke about a

tough and challenging time of Kuwait 19 as shelf life of this oil is only 3 months. He travel to Gujarat to buy the peanuts as a raw material. Near future he is going to adapt contract farm to ensure continuous quality raw material to manufacturer oil. To make business successful he

always worked on working capital and he always maintained balance of two months of working capital in the form of cash. Student enjoy this session by asking questions related to Oil Mill.

The vote of thanks is proposed by Miss .Sonali Mandwad.

Activity Report on preservation of the OZONE Layer

Event Organized By: NSS Unit and BCA Department

Activity objectives- To make students aware about **preservation of the OZONE Layer**

Category of Participant: BCA **Date of Event:** 016/09/2022

Nature of activity – Workshop

Name of the Speaker:Mr.Das Rahul M

Time: 11 am to 12 pm **Mode-** Offline

Number of Participant: 84 students

Activity Coordinator- Mr Pramod D. Vaidya

The session started with the welcome guest by Mr. Santosh Kulkarni

About OZONE Layer.

The **ozone layer** or **ozone shield** is a region of Earth's stratosphere that absorbs most of the Sun's ultraviolet radiation. It contains a high concentration of ozone (O₃) in relation to other parts of the atmosphere, although still small in relation to other gases in the stratosphere. The ozone layer contains less than 10 parts per million of ozone, while the average ozone concentration in Earth's atmosphere as a whole is about 0.3 parts per million. The ozone layer is mainly found in the lower portion of the stratosphere, from approximately 15 to 35 kilometres (9 to 22 mi) above Earth, although its thickness varies seasonally and geographically.

The ozone layer was discovered in 1913 by the French physicists Charles Fabry and Henri Buisson. Measurements of the sun showed that the radiation sent out from its surface and reaching the ground on Earth is usually consistent with the spectrum of a black body with a temperature in the range of 5,500–6,000 K (5,230–5,730 °C), except that there was no radiation below a wavelength of about 310 nm at the ultraviolet end of the spectrum. It was deduced that the missing radiation was being absorbed by something in the atmosphere. Eventually the spectrum of the missing radiation was matched to only one known chemical, ozone.^[2] Its properties were explored in detail by the British meteorologist G. M. B. Dobson, who developed a simple spectrophotometer (the Dobsonmeter) that could be used to measure stratospheric ozone from the ground. Between 1928 and 1958, Dobson established a worldwide network of ozone monitoring stations, which continue to operate to this day. The "Dobson unit", a convenient measure of the amount of ozone overhead, is named in his honour.

The ozone layer absorbs 97 to 99 percent of the Sun's medium-frequency ultraviolet light (from about 200 nm to 315 nm wavelength), which otherwise would potentially damage exposed life forms near the surface

In 1976, atmospheric research revealed that the ozone layer was being depleted by chemicals released by industry, mainly chlorofluorocarbons (CFCs). Concerns that increased UV radiation due to ozone depletion threatened life on Earth, including increased skin cancer in humans and other ecological problems,^[4] led to bans on the chemicals, and the latest evidence is that ozone depletion has slowed or stopped. The United Nations General Assembly has designated September 16 as the International Day for the Preservation of the Ozone Layer.

Mr Das Rahul guide our student about Preservation of Ozone layer

It absorbs most of the sun's ultraviolet radiation (UV-B), limiting the amount of this radiation that reaches the surface of the Earth. Because this radiation causes skin cancer and cataracts, the ozone layer plays an important role in protecting human health.

After this question answer session was conducted and students asked many questions regarding the Ozone layer and their work Mrs. Das Rahul M has answered all the questions satisfactorily and the programme was concluded with Vote of Thanks

Activity Report on Gurunanak Jayanti

Event Organized By: NSS Department

Activity objectives- To follow the thoughts of great leader

Date:-09/11/2022

Time: 5pm to 5:30 pm

Venue :-Class Room No 7

Number of Participant: 15

Activity Coordinator- Mr Santosh Kulkarni

As you are aware, the 9/11/2023 is celebrated as Gurunank Jayanti the birth of the first Sikh guru, Guru Nanak.^[6] One of the most celebrated and important Sikh gurus and the founder of Sikhism, Guru Nanak Dev is highly revered by the Sikh community.^[7] This is one of the most sacred festivals in Sikhism, or Sikhi The festivities in the Sikh religion revolve around the anniversaries of the 10 Sikh Gurus. These Gurus were responsible for shaping the beliefs of the Sikhs. Their birthdays, known as Gurpurab, are occasions for celebration and prayer among the Sikhs.

All staff were present

Activity Report on Sardar Vallabhbhai Patel Jayanti

Event Organized By: NSS Department

Activity objectives- To follow the thoughts of great leader

Date:-31/11/2022

Time: 5pm to 5:30 pm

Venue :-MDP

Number of Participant: 15

Activity Coordinator- Mr Santosh Kulkarni

As you are aware, the 31st October is celebrated as 'Unity Day' to mark the birth anniversary of Sardar Vallabhbhai Patel, known for his supreme patriotism, iron will, and courage of conviction. His vital role in the Indian freedom struggle and unification of States earned him the title of 'Iron Man of India'. Unity, as a theme, forms part of the "Paanch Pran", as declared by the Hon'ble Prime Minister on Independence Day, 2022. There will be a weeklong celebration from 25th to 31st October, 2022 under the aegis of Azadi Ka Amrit Mahotsav with the active participation of all to honor the patriotism of Sardar Vallabhbhai Patel and to reinforce his teachings and values.

National Youth Day is celebrated every year on January 12 to mark the birth anniversary of Swami Vivekananda..

All staff were present

He was a key figure in the introduction of Vedanta and Yoga to the Western world;^{[6][7][8]} and is credited with raising interfaith awareness, and bringing Hinduism to the status of a major world religion.^[9] Vivekananda became a popular figure after the 1893 Parliament of Religions in Chicago, where he began his famous speech with the words, "Sisters and brothers of America...", before introducing Hinduism to Americans.^{[10][11]} He was so impactful at the Parliament that an American newspaper described him as: "an orator by divine right and undoubtedly the greatest figure at the Parliament".^[12] After great success at the Parliament, in the subsequent years, Vivekananda delivered hundreds of lectures across the United States, England and Europe, disseminating the core tenets of Hindu philosophy, and founded the Vedanta Society of New York and the Vedanta Society of San Francisco (now Vedanta Society of Northern California),^[13] both of which became the foundations for Vedanta Societies in the West.

Born into an aristocratic Bengali Kayastha family in Calcutta, Vivekananda was inclined from a young age towards religion and spirituality. He later found his guru, Ramakrishna, and became a monk. After the death of Ramakrishna, Vivekananda extensively toured the Indian subcontinent, acquiring first-hand knowledge of the living conditions of Indian people in then British India. Moved by their plight, he resolved to help his country men, and found a way to travel to the United States where he was highly successful. In India, Vivekananda founded the Ramakrishna Math, which provides spiritual training for monastics and householder devotees, and the Ramakrishna Mission, to provide charity, social work and education Vivekananda was also a major force in contemporary Hindu reform movements, and contributed to the concept of nationalism in colonial India He is regarded as a patriotic saint, and his birthday in India is celebrated as National Youth Day

Activity Report on Netaji Subhashchandra Bose Jayanti

Event Organized By: NSS Department

Activity objectives- To follow the thoughts of Great Leader

Date:-23/01/2023

Time: 1pm to 1:30 Pm

Venue :-Class Room No 7

Number of Participant: 30

Activity Coordinator- Mr Santosh Kulkarni

Introduction

Netaji Subhash Chandra Bose was an Indian Nationalist whose patriotism towards India has left a mark in the hearts of many Indians. He is famously known as the founder of 'Azad Hind Fauj' and his famous slogan is 'Tum Mujhe Khoon Do, Main Tumhe Aazadi Dunga'. Today we are celebrating his 126th Birth Anniversary as Parakram Diwas.

Netaji Subhas Chandra Bose was born on 23 January,1897 in Cuttack, Orissa and he died on 18 August,1945, in a hospital in Taiwan after suffering from burn injuries sustained in a plane crash.

Subhas Chandra Bose is considered the most influential freedom fighter with extraordinary leadership skills and a charismatic orator. His famous slogans are '**tum mujhe khoon do, main tumhe aazadi dunga**', '**Jai Hind**', and '**Delhi Chalo**'. He formed Azad Hind Fauj and made several contributions to India's freedom struggle. He is known for his militant approach that he used to gain independence and for his socialist policies.

A film on Netaji subhash Chandra bose was shown on the occasion of Netaji Subhashchandra bose

National Voters day

Introduction

In order to encourage more young voters to take part in the political process, Government of India has decided to celebrate January 25 every year as "National Voters' Day". It has been started from 25 January 2011 to mark the foundation day of Election Commission of India.

A meeting of the Union Cabinet, chaired by Prime Minister Manmohan Singh, approved a Law Ministry proposal to this effect, Information and Broadcasting Minister Ambika Soni told reporters. In this day rallies in government campus were going on.

By Observing the new voters, who have attained the age of 18 years, were showing less interest in getting enrolled in the electoral rolls, she said the level of their enrolment was as low as 20 to 25 per cent in certain cases.

"In order to effectively deal with this problem, the Election Commission has decided to take up a vigorous exercise to identify all eligible voters attaining the age of 18 years as of January 1 every year in each of the 8.5 lakh polling stations across the country," she said.

Such eligible voters would be enrolled on time and handed over their Electoral Photo Identity Card (EPIC) on January 25 every year, Soni said, adding this initiative is expected to give the youth a sense of empowerment, pride and inspire them to exercise their franchise.

The new voters would be provided with a badge with its logo "Proud to be a voter - Ready to vote", she said. The theme of NVD 2016 is 'Inclusive and qualitative participation' reiterating the commitment towards reaching out to the last voter and promoting informed and ethical voting. The slogan 'No Voter to be left behind' has been coined to further emphasize the focus on inclusiveness. The National Awards are being conferred for excellence, proficiency and innovation in election processes and procedures. These awards recognize contribution by election machinery, government department/ agency/ PSU, CSO and media said. The greatest joy is seen in young voters of India.

On the Occasion of Voters Day Prof. R. Khirsagar gave a speech on Importance of Voting

Nature of activity :-Tribute to our brave solders

Name of the Speaker:

Time: 12 to 1 pm

Number of Participant: 50

Activity Coordinator- Mr Pramod D. Vaidya

Background

The 2019 Pulwama attack occurred on 14 February 2019, when a convoy of vehicles carrying Indian security personnel on the Jammu–Srinagar National Highway was attacked by a vehicle-borne suicide bomber at Lethapora in the Pulwama district of the erstwhile state of Jammu and Kashmir. The attack killed 40 Indian Central Reserve Police Force (CRPF) personnel as well as the perpetrator—Adil Ahmad Dar—who was a local Kashmiri youth from the Pulwama district.^{[5][6]} The responsibility for the attack was claimed by the Pakistan-based Islamist terrorist group, Jaish-e-Mohammed. India blamed neighbouring Pakistan for the attack, while the latter condemned the attack and denied having any connections to it. The attack dealt a severe blow to India–Pakistan relations, consequently resulting in the 2019 India–Pakistan military standoff. Subsequently, Indian investigations identified 19 accused. By August 2021, the main accused along with six others had been killed, and seven had been arrested.

Introduction

Chhatrapati Shivaji Maharaj Jayanti, also known simply as Shiv Jayanti, is a festival and public holiday of the Indian state of Maharashtra. This festival is celebrated on February 19, celebrating the birth anniversary of Chhatrapati Shivaji Maharaj, the first Chhatrapati and founder of the Maratha Empire. He reestablished Hindavi Swarajya [Hindavī Svarājya; "Self-Rule of the hindavi people"]. Some people celebrate this day as per Hindu Calendar in Maharashtra.

Activity Report on Vinayak Damodar Savarkar Punyatithi

Event Organized By: NSS Department

Activity objectives- To follow the thoughts of great leader

Date:-27/02/2023

Time: 12am to 1 pm

Venue :-Class Room No 1 (MDP)

Number of Participant: 30

Activity Coordinator- Mr Santosh Kulkarni

Introduction

Veer Savarkar (28 May 1883 – 26 February 1966), was an Indian politician, activist, and writer.

Savarkar developed the Hindu nationalist political ideology of Hindutva while imprisoned at Ratnagiri in 1922.^{[3][4]} He was a leading figure in the Hindu Mahasabha He started using the honorific prefix *Veer* meaning "brave" since he wrote his autobiography.^[6]

Savarkar joined the Hindu Mahasabha and popularized the term *Hindutva* (Hinduness),^[7] previously coined by Chandranath Basu,^[8] to create a collective "Hindu" identity as an essence of Bharat (India).^{[9][10]} Savarkar was an atheist^[11] but a pragmatic practitioner of Hindu philosophy Savarkar began his political activities as a high school student and continued to do so at Fergusson College in Pune.^[12] He and his brother founded a secret society called Abhinav Bharat Society. When he went to the United Kingdom for his law studies, he involved himself with organizations such as India House and the Free India Society. He also published books advocating complete Indian independence by revolutionary means. One of the books he published called *The Indian War of Independence* about the Indian Rebellion of 1857 was banned by the British colonial authorities.^[14]

In 1910, Savarkar was arrested and ordered to be extradited to India for his connections with the revolutionary group India House. On the voyage back to India, Savarkar staged an attempt to escape jumping from steamship SS Morea and seek asylum in France while the ship was docked in the port of Marseilles. The French port officials however handed him back to the British government. On return to India, Savarkar was sentenced to life terms of imprisonment totaling fifty years and was moved to the Cellular Jail in the Andaman and Nicobar Islands.

He was released in 1924 by the British officials after he wrote a series of mercy petitions to the British.^[15] He virtually stopped any criticism of the British regime after he was released from jail.

After 1937, he started traveling widely, becoming a forceful orator and writer, advocating Hindu political and social unity. In 1938, he was a president of Marathi Sahitya Sammelan in Mumbai. Serving as the president of the Hindu Mahasabha, Savarkar endorsed the idea of India as a *Hindu Rashtra* (*Hindu Nation*). Savarkar assured the Sikhs that "when the Muslims woke from their day-dreams of Pakistan, they would see established instead a Sikhistan in the Punjab." Savarkar not only talked of Hindudom, Hindu Nation and Hindu Raj, but he wanted to depend upon the Sikhs in the Punjab to establish a Sikhistan.^{[17][18][19]}

By 1939, Savarkar committed an alliance with the Muslim League in 1939 after both were decimated by the Indian National Congress. He also supported the two-nation theory. He was openly critical of the decision taken by the Congress working committee in its Wardha session of 1942 to a resolution which said to the British colonial government: "Quit India but keep your armies here", which was intended to defend India against a possible Japanese invasion. In July 1942, as he felt extremely stressed carrying out his duties as the president of Hindu Mahasabha, and as he needed some rest, he resigned from the post, the timing of which coincided with Gandhi's Quit India Movement

In 1948, Savarkar was charged as a co-conspirator in the assassination of Mahatma Gandhi; however, he was acquitted by the court for lack of evidence.

Principal Pramod Vaidya sir has given history, thought about Veer Savarkar

Solapur Science Centre,

Solapur

Subject: Educational Visit on the Occasion of Science Day on 28 February 2023

Respected sir,

We are Affiliated to **Punyashlok Ahilyadevi Holkar Solapur University, Solapur** for **BBA, BCA and MBA** programs & managed by 125 years old educational institute the S.P.Mandali,Pune.

With Reference to our Telephonic discussion held on 23/02/2023, on the Occasion of Science Day, We are planning to arrange a visit of our UG and PG students to your center. It will be an educational tour and will help us to gain a better understanding of the things we study theoretically. It will also give the students and the teachers a chance for interaction with experts from your Center.

Kindly allow us to visit Science Center.

Thanking you.

Regards,

Director

Voting awareness among Youth in India

Voting is the most important part of our Democratic government. Nowadays, the latest youth is not at all active in voting. Everyone's thinking is different about voting. It depends on their state of mind. If we think about the nowadays Youth their state of mind says that we don't know anything about the candidates and even about the process of voting. If every voter will think like this then there is number of votes lost. That could decide the fate of a candidate.

The other way to know what the youngsters think is to hold a debate among schools, colleges or at a public place where all 18+ can come and share their views regarding voting knowledge, process and what a candidate should do for country and people. When debates are shown on television then people are not interested to listen so instead we can have a live debate.

Registering to vote should be made more easy and available. If they will maintain the maximum number of papers then they will not be able to fill it. Voter registration should be available at all high school and college campuses. Because registering doesn't need to select a political party and the form is easy to fill out, if they know where to get it. We can even hold the programs at schools, colleges to encourage the youth for voting. OR we can show the demo for youth how to vote a candidate. The internet is another issue to consider in increasing voter turnout. Because internet is the place where we can do almost anything. Even voting can be made through internet. As nowadays Youth is more advance in using every electronic device. But if we think the solution internet for

every question or we can think about voting then at otherside it will suffer lose of votes because poor people may or may not have technologies, mobiles, etc.

Voting is very important for everyone because we live in a country where almost anyone can vote and anyone is allowed to become an elected official. We have right to vote for the candidate we want. But according to me voting is not only to go and vote for our favorite candidate but instead voting means to vote the candidate who is right to handle our situation, who can make our country improve in every part of area, who knows to act according to the current situation, etc. So vote the right candidate who can make our country the best.

Covid is taking a country to different level. Do to Covid there is possibility of election to move further. Candidate should not make covid as their advantage. Because many poor people are their in country who cannot afford this situation. So they should think about it and then make the right decision for every single person.

We can use the social media to make awareness about symbols of independent candidates. "Your vote is your voice" remember this and vote. We should vote for our better tomorrow because we are independent and have right to vote. According to 'Article 326' of the Indian Constitution we have right to vote.

Topic Name: Voting Awareness Among Youth In India.

* Why should We Vote in India:

While there are some who genuinely cast their vote, many people sit back and relax on voting day, and others are cajoled into voting for particular candidates. The important of voting is lost amongst the hustle and bustle of city life.

While everyone sits and complains about this and that, and makes suggestions that the government should change this and that, the elections come and go without half the population paying attention.

After 69 years of Independence, India has not proved itself to have control and order. The fault lies with both the leaders and order and people are driven by religious beliefs rather than what is good for the country.

But politics is wound up in frivolous matter rather than paying more attention to uplifting the poor, helping the environment, agriculture, roads, planned urban development and so on.

* Reasons To vote

● It's our right: As a democratic country, India is built on the foundations of election. Our Parliament and Legislatures are the people, by the people and for the people. Voting is a constitutional right the are privileged to have. We take it for granted, but the constitution has given us the right to elect who we want, and the right to make the change.

● Agent of change: Your vote can play an important part in making the change. If you are unhappy with the current government, you can vote for a better one. Not voting could result in the same party ruling for another five years. At the end of the day, if the country is stuck with a bad government, it's the people to blame for voting wrong or for not vote at all.

● NOTA: The Government of India has made the provision for voters to exercise their vote even if they are not happy with any of candidates. NOTA stands for "None of the Above" and this is an important vote to cast for those who aren't satisfied by any of the parties standing.

India's History:

Indians struggled to win our Freedom and we have the right to vote because of them. Exercising our right to vote upholds what our Freedom fighters envisioned for India. We can honor and respect our Freedom fighters and the struggle of our past generations by voting for a better India.

We Indian people have a right to vote. In India girls have right to vote in Age 18 years and for boys is also same 18 years.

- The right to vote is one of the few pillars of democracy. Therefore it is important that one must vote if he is able to and contribute to the country.

- A citizen shouldn't find a reason as to not vote as it must be a compulsive duty and must come from within.

- Citizens of the country constantly complain about how our political climate is bad and worsening day by day and the honest truth is we have a chance to change it for the better.

"The Ballot is stronger than the Bullet."

Voting Awareness Among Youth In India.

" Voting is the most valuable right of every citizen "

One's vote is their way of expressing themselves voice. it is commitment to ourselves, each other, this nation and this world. voting is not only a right but also a responsibility, but many of voters do not carry this responsibility properly, thereby not understanding the gravity of the power given to them by the constitution.

This is particularly true in the case of the urban population where election day is considered another holiday.

Since voting is not compulsory, people just choose to relax instead of participating in the election.

India, with the world's largest youth population, is soon to become the youngest country in the world.

There has been increased efforts from innumerable political parties and organizations in mobilising youth votes, as their vote matters most. Yet, even with all the encouragement from external parties, the question remains - " do the youth of India actually Value their Vote? "

One of the first active initiatives that the government took to increase the participation of youth voters was the establishment of National Voters Day, which is celebrated every 25th of January since 2011. The aim is to enrol eligible youth and motivate them to participate in the voting process.

Indians struggled to win our freedom and we have the right to vote because of them. We can honor and respect our past generations by voting for a better India.

The most obvious way to encourage youth vote is by education and spreading awareness. In democracy, every vote counts and it is important for the youth to know the value of their vote. The youth must vote to protect their fundamental rights, to celebrate democracy and to make their concerns heard.

Many organizations, such as Bangalore Political Action Committee (B.PAC), have encouraged the youth to vote, by mobilising first-time voters. The recent general election had around 15 million first-time voters (aged 18 to 19) that were added to the nearly 900 million electorates.

Secondly, online voting systems could considerably boost the young voter turnout as it provides the opportunity for Indian citizens to vote regardless of their internal migration, i.e. migration within the country. This has already been identified as a key issue stopping people from voting, as more than half of the youth today, works and lives in cities in which they are not registered to vote.

The Election Commission of India redesigned its website, to make it more user friendly. The new interface of the website has many features which include voter registration, applying for voter I-cards, information regarding the elections, different political parties, etc. It also has a facility for NRIs who want to register themselves.

They also launched their internet channel - 'Voter Education Channel'. The channel has a repository of video clips of eminent personalities from all walks of life encouraging the electorate to "go for the most important right of an Indian Citizen - that of the vote."

If government/organisations are providing us so many facilities, then every Indian youth must exercise their right to vote. Every youth needs to study politics in order to choose the right political leader.

"Everyone must vote"

"The ignorance of one voter in a democracy impairs the security of all."

मतदान करा, लोकशाही जागवा !
मतदान करणे व योग्य मताला विजयी करणे, आपलं देश, आपलं राज्य, आपलं गाव आणि यासंदर्भातल्या सुव्यवस्था समाजातल्या प्रत्येक माठासांनी जबाबदारीने पार पाडायला हवे. शेवटी काय तर मतदान करणे हे आपले मुलभूत अधिकार आहेत. कोणत्या पक्षाला व त्या पक्षकारी नेत्याला निवडून आणायचं हे ही नितकंच महत्वाचं आहे. प्रत्येक एक मत हा बहुमूल्य आहे आणि प्रत्येक जबाबदार नागरिकाने मतदानाचे योगदान द्यायलाच हवे. आपल्या देशाची हाती ये ही तरुणांकडे अतिशय प्रगतीशील असते असे म्हटले जाते. आहे ती पिढी पेक्षा ही नवीन पिढी तरुणांकडे जास्त विचारशैलीने बाधितले जाते. पुर्वीची जुनी पिढी आणि भविष्यात नवनिर्माठा हीणारी भावी पिढी यां दोन्ही महत्त्वा जी असते ती असते ती 'युवा पिढी'. ज्यांना पुर्वीच्या पिढी बद्दल ही माहिती असतं आणि येणा-या पुढच्या पिढीचा ही त्यांना अंदाज येतो. ह्या युवा पिढी कडे नवनिर्मितीची प्रचंड शक्ती असते. नव्या पध्दतीने विचार करणे व त्यावर आचरणान आणणे, नवं काही तरी वेगळं तयार करून घ्यावे. जुन्या गोष्टींमुळे जर काही गाठित विस्कटत असेल तर त्या विचारांना दूर करणे यांसगळ्या बाबत तरुणांना अंदाज असतो. याशिवाय अर्थशास्त्र, राज्यशास्त्र, सामाजिक भौगोलिक व इतर ही समाजशील विषयांवर असणारे प्रभुत्व प्रत्येक तरुणांकडे जरी नसलं तरी काही तरुण मंडळी या आस विषयांवरच सखोल अभ्यास करतात. करणान येणारे अणुचाचण्या, परिक्षण, समाज माध्यमांबद्दलच वर्णन, विस्तारण याबद्दल वारकाईने जरी लक्ष दिलं व समान वय असणा-या आणखी लोकांशी चर्चा केली तर बहुदा कित्येक प्रश्न मार्गी लागतात. मतदान करणं हे तर महत्वाचं आहेच व त्याही पेक्षा असणा-या युवापिढीने मतदान करणं नितकंच महत्वाचं व देशाच्या भवतल्यासाठी हितकारक असणार आहे. शेवटी काय तर देशाचं भविष्य किती उज्जवल आहे हे तरुणांच्याच (युवा पिढीच्याच) हातात असतं असं लोक म्हणतात. प्रत्येक तरुण मुलाने, तरुण मुलीने जर पुढे येऊन आपला मतदानाचा बहुमोल दिला नाही तर आज हा चांगला असणारा देश उदया अग्रगतिशीलतेकडे निघायला वेळ लागणार नाही.

मतदान केंद्राने आपले व आपल्या समाजाचे भले होणार आहे. आपल्या आजूबाजूचे सार्वजनिक काम उदाहरणार्थ: रस्त्याचे काम, पाणीपुरवठा, वीजपुरवठा, स्वच्छता आश्रयान जागी जागी असे काही कामे असतात ज्यात स्थानिक नागरिक जास्त सहकार्य करू शकत नाहीत परंतु या सारख्या गोष्टींना त्यांना सामोरे जावे लागते. जर अशा वेळेस महानगरपालिका, आपल्या संस्थेशी संबंधित असतारे प्रभाग पक्षकार, नगरसेवक, जिल्ह्या संबंधित काही तक्रारी असतील तर जिल्हा आधीकारिंना सूचित करणे. आपल्या प्रशासनाच्या पुरेपूर वापर करून घेणे. आपल्याला येणा-या अडथळांना, स्थानिक नागरिकांनी एकत्र येऊन चर्चा करणे त्यावर विचारविनिमय करणे व प्रभागीय नगरसेवकांना कळवणे त्यांची मदत घेणे व आपला प्रश्न सोडवणे हे महत्त्वांचे आहे. या सर्व टप्प्यांना सामोरे जाणे हे केवळ मतदान केंद्रामुळेच शक्य होते. कार्यकर्तेच्या पारख करणे त्यांना समाजसेवा, नागरिकांचे प्रश्न सोडवण्यात किती रस आहे हे जाणून घेणे. त्यांच्या पक्षाची माहिती घेणे, त्यांचे वय, कामागिरी, शिक्षण यांबद्दल तत्पूर्वी जाणून घेणे. त्यांना सामाजिक बांधिलकी किती महत्त्वाची आहे ते चाचपडून पाहणे.

आपण एखाद्या पक्षाला वा त्यांच्या पक्षकाराला का मत देतोय हे ही विचार करणे. त्यांना मत देऊन आपले मत वाया तर जाणार नाही ना याची काळजी घेणे. मतदान करणे हे तर महत्त्वाचे आहेच व आपण कोणत्या पक्षाला बहुमत देऊन निवडून आणणार आहोत त्याचाही विचार करणे. सामान्य लोकांची प्रत्येक प्रश्न सोडवण्यात यावे हीच सामान्य जनतेची अपेक्षा असते. आणी याच गोष्टींसाठी ते पक्षाला बहुमताने निवडून देतात. हा आपला लोकशाहीने समृद्ध असणारा हा माझा देश कधीही निराशाजनक नसायला हवा. स्वच्छता प्रभाग, आरोग्य प्रभाग, व्यवहारी संबंधित तश्तरे, वाजपेठा, मार्केट, सार्वजनिक ठिकाणे, पाणीपुरवठा, वीजपुरवठा, मातवाहतूक, रेल्वे वाहतूक, बस वाहतूक, रस्ते सुशोभीकरण इत्यादी नानाविध गोष्टींत नागरिकांना रोज प्रश्न नाहीत ना हे ही समजून घेणे गरजेचे आहे. युवा पिढीला पुढे सरसावणे, त्यांचाही समस्या विचारणा करावी. तरुणांना संघटित करावे.

मतदान करणे, मतदानांबद्दल हक्क बजावणे, समाजाच्या दृष्टीने प्रगतीकारक असणारे पक्ष व त्या पक्षातील नेता हा हितकारक असायला पाहिजेत या बद्दलची पूर्वकल्पना व असणारी जाणीव मतदानकारकाला असणे ही नितकंच म्हत्वाची आहे. असणारी शुवापिढी उज्जवल भाविण्याच्या दिशेने वाढ चालेल तर हा माझा सुंदर देश, इतर देशापेक्षाही खूप पुढे असेल. मतदान करा, अधिकार जागवा आणि देशाची भाविण्या समृद्ध करा.

जय हिंद ! जय भारत !!
वन्दे मातरम् !!!

Voting Awareness Among Youth In India

"Voting is not just our right but our duty as well", this saying goes a long way as it tells us clearly we have responsibilities as citizens of the Country. To make sure we citizens run and take good care of our Country we must put in our votes.

A lot of the time people choose to believe that a single vote won't make much of a difference but that is far from the truth & people must realize it as soon as possible".

The right to vote is one of the few pillars of democracy. Therefore it is important that one must vote if he is able to and contribute to the Country.

How To Encourage Young People To Vote

- Better Political Education In schools.
- Simplify Voter Registration.
- Have more diverse politicians

India's 2019 General Elections has recently concluded & the Country has experienced its highest voter turnout in decades.

Of these, the votes of the "youth" (which can be loosely defined as those between the ages of 18 and 25) have played a significant part in shaping the outcome of the election.

900 million eligible voters, 45 million voters under the age of 25, 15 million first-time voters. This is the pool of Indian citizens electing the next generation of leaders. With such a large number of young voters, they could potentially be game changers in future elections. India, with the world's largest youth population, is soon to become the youngest country in the world with an average age of 29, along with an ever-increasing workforce, set to be 64% of the population by 2020. Not only does this indicate the specific demographic which is going to be most impacted by economic turbulence, but it also highlights the population which should care the most about their vote.

Go And Vote

In 1824, Andrew Jackson won the presidential popular vote but lost by one vote in the House of Representatives to John Quincy Adams after an electoral college dead-lock.

THE POWER OF ONE VOTE

" We, the citizens of India, having abiding faith in democracy, hereby pledge to uphold the democratic traditions of our country & the dignity of free, fair and peaceful elections, and to vote in every election fearlessly & without being influenced by considerations of Religion, Race, Caste, Community, Language or any Inducement."

" Just because you do not take an interest in politics doesn't mean politics won't take an interest in you "

Your Vote Matters

Report on Mission Yuva Swasthya – Covid Vaccination Drive

Activity: Covid Vaccination Drive

Coordinator: Jijamata Health Centre, NSS and IQAC

Venue: Classroom 1, Prin, KPMIM, Solapur

No of Participants: 26

Time: 10am to 4pm

The NSS Unit of institute in association with Jijamata Medical Center has organized a **Covid Vaccination Drive** in the name of “**Mission Yuva Swasthya**” on 28th October 2021 at College Premises under the guidance of Punyashlok Ahilyadevi Holkar Solapur University Solapur during 10am to 5pm. All students in the college were appealed to take 1st or 2nd dose of Covid vaccination as applicable. Also all are instructed to circulate this message among their family, friends and other people to take a due advantage of this programme.

The programme has been inaugurated in the presence of Mr. Pramod Vaidya, i/c Directors of Prin. KPMIM, Dr. Kalyani Kale, Medical Officer, Jijamata UPHC along with nursing staff, Mrs Savita Vaidya IQAC Head and Mr. Vighnesh Nadargi, NSS PO, Prin. KPMIM, and teaching and non teaching staff.

A total 26 people including parents have been vaccinated in this drive. The report of this programme has been forwarded to the Medical Officer PAH Solapur University Solapur by NSS PO of College Mr. Nadargi according to the instructions from University. The summary of the vaccination drive is as follows-

Name of Vaccine	1 st dose	2 nd dose	Total
Covishield	16	09	15
Covaxin	00	01	01

A team of NSS and Medical staff of Punyshlok Ahulyadevi Holkar Solapur university, Solapur has visited the programme and appreciated the efforts taken.

Activity Coordinator

Learning Through Problem Solving

- Understanding the problem
- Solution Finding Approach
- Analyzing the scenario

Problem Solving Approach

Event Organized By: MBA dept. & Prin. K.P. Mangalvedhekar Institute Of Management , Career Development and Research Solapur.

Topic: “Problem Solving Approach”

Category of Participant: MBA I

Name of Speaker-Mr. Hrishikesh Kulkarni (Deputy Manager at Kirloskar)

Nature of Activity- Workshop

Date of Event:2/03/2022

Time: 10am to 4pm
Vaidya

Number of Participant: 29 Corroborator-Mrs. Savita P.

Activity Report

Today’s workshop started with guest introduction by Mrs. Savita Vaidya. In first half speaker has given insight to the organisation structure of a companies in general.

He discussed various methods of problem solving like

Define the Problem, Determine the Root Cause(s) of the Problem, Develop Alternative Solutions,

Select a Solution, Implement the Solution, Evaluate the Outcome

He also spoke about advantages of problem solving

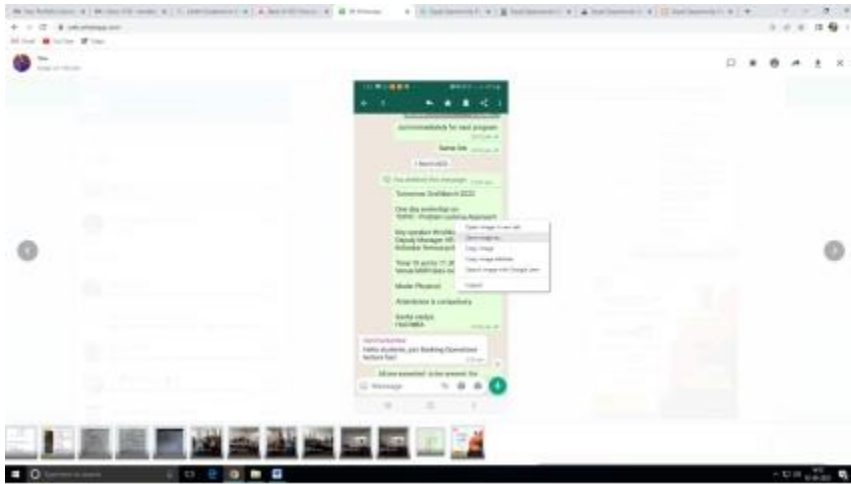

It ensures consistency, as everyone understands the approach to be used. By using data, it helps eliminate bias and preconceptions, leading to greater objectivity. It helps to remove divisions and encourages collaborative working. It stops PS groups diverging into different problems. It also helps PS groups reach consensus. It eliminates the confusion caused when people use different problem solving techniques on the same issue. It makes the decision-making process easier. It provides a justifiable solution.

In 2nd half he spoke about skills required for problem solving like active listening analysis, research, creativity, communication, dependability, decision making, team-building

And he illustrated many live problems. He also discussed many aspects of live problems and what approach he has used. He also discussed legal problems related to human resource management .

He also spoke about positive attitude about accepting how the situation came into play and how you will implement the solutions. Good problem-solving abilities need excellent analytical skills. And to enhance analytical skills, you need to be more patient and observant about everything going around in the organization. With time and practice, the analytical skills can be sharpened so that you can tackle problems with much more authority and proper facts.

Vote of thanks is proposed by Mrs. _____ of MBA I students

गुजरात डेयरी उद्योग अमूल डेयरी : आय विवरण एवं बैलेंस सीट

अमूल डेयरी के खाते सहकारी समितियों के बारे में भारतीय कानून की आवश्यकताओं की अनुपालना में रखे गये हैं। अमूल जैसी सहकारी समिति की इकाई को विशेष सहकारी समितियों के उद्देश्यों में निवेश के लिए अपने मुनाफे के कुछ हिस्से को अलग अथवा अलग से निर्धारित करना पड़ता है। ऐसे फंडों "सहकारी समिति शिक्षा एवं प्रचार फंड" जैसे नाम के लेबल लगे हैं। एक्जिबिट 0 में, इनको पूंजी रिजर्व में (एक्स.0, भाग क, लाइन 9) जोड़ा गया है।

एक्जिबिट 0 के भाग क में, पिछले चार वर्षों के अमूल के बैलेंस सीट कॉलम संख्या. 2, 4, 6 एवं 8 में सरल रूप में दर्शाये गये हैं। वर्ष के दौरान पूछे जाने पर बैलेंस सीट में हुए बदलावों को कॉलम संख्या.3, 5 एवं 7 में, दर्शाया गया है। ये बदलाव या तो स्रोतों के हैं या फिर फंडों के उपयोग के हैं। इस तरह, 31 मार्च 1960 को, अमूल ने 18.47 लाख रुपयों की कामकाजी पूंजी का उपयोग किया था। 31 मार्च, 1961 तक यह पूंजी 6.29 लाख रुपये घटकर 12.18 लाख रुपये हो गई, इस प्रकार 12.18 लाख रुपये जारी किये गये : इस अर्थ में, 31 मार्च, 1960 से 31 मार्च, 1961 तक की अवधि में फंडों का स्रोत कामकाजी पूंजी था। उसी समय 32.41 लाख रुपये की अतिरिक्त अचल सम्पत्ति प्राप्त की गई थी, और इस फंड का उपयोग किया गया। एक्जिबिट 0 के भाग क में, वर्ष 1960-61, 1961-62 एवं 1962-63 के दौरान के अमूल के सभी फंडों के स्रोत दर्शाये गये हैं। यह इनके उपयोगों को भी दर्शाता है जिसमें इन सभी धनराशियों को डाला गया था।

अमूल पारम्परिक स्रोतों से (आपूर्तिकर्ता, स्थानीय बैंक, मूल्यहास, मालिकों का निवेश, एवं विक्रय) निधियाँ प्राप्त करता है, परन्तु जो सहकारी समितियों (सरकार, "विदेशी सहायता" एजेन्सियाँ एवं जो सहकारी समिति आंदोलन और भारत के आर्थिक विकास में रुचि रखते हैं) ऐसे अन्य संगठन - इन स्रोतों से प्राप्त फंडों की गिनती एक्जिबिट 0, भाग क, लाइन 5 में की गई है और उसका निरूपण दान की हुई पूंजी के रूप में किया गया है) के लिए विशिष्ट हैं ऐसे स्रोतों से भी वह निधियाँ प्राप्त करता है। इसी तरह से, अमूल के फंडों का उपयोग मुख्यतया पारम्परिक है (कामकाजी पूंजी, अचल सम्पत्तियाँ, एवं संचालन व्यय), परन्तु धनराशियों का ऐसा भी एक उपयोग है जिसमें भले ही वह तुलनात्मक रूप से छोटी मात्रा में हैं, फिर भी अमूल के निरंतर विकास में काफी महत्वपूर्ण हैं : इसका सबसे अच्छी तरह से व्यय के रूप में निरूपण "डेयरी विकास" के बारे में (एक्जिबिट 0, भाग क, लाइन 14) किया गया है।

एक्जिबिट 0, भाग ख, कुदरती तौर से दूध की मात्रा है जो एक्जिबिट के भाग क में स्रोतों एवं उपयोगों के रूप में दर्शाया गया है जो प्रत्येक वर्ष की धनराशि की मात्रा से संबंधित है। भाग ख में, कॉलम संख्या 2 में 31-3-60 से 31-3-61 तक का उल्लेख है, कॉलम संख्या 3 में 31-3-61 से 31-3-62 तक का उल्लेख है, और कॉलम संख्या 4 में 31-3-62 से 31-3-63 तक का उल्लेख है। दो संबंध दर्शाये गये हैं :संभाले गये दूध की कुल मात्रा तथा उपयोग में ली गयी कुल धनराशि के बीच और उपयोग में ली गई धनराशि में वृद्धि तथा पिछले वर्ष में संभाले गये दूध की मात्रा में वृद्धि के बीच। उदाहरण के तौर पर, एक्जिबिट 0, भाग 3 के कॉलम 3 में लाइन 6 में पहला आंकड़ा 224 दर्शाया गया है, जो सूचित करता है कि 22,400/- रु. का अमूल द्वारा वर्ष दौरान

भारतीय प्रबंध संस्थान, अहमदाबाद के प्रोफेसर हल्से एवं माइकल द्वारा तैयार किया गया।

भारतीय प्रबंध संस्थान - अहमदाबाद की केस सामग्री वर्ग चर्चा के लिए एक आधार के रूप में तैयार की गई है। ये केस प्रशासनिक समस्याओं के गलत या सही संचालन के उदाहरण के रूप में प्रस्तुत करने के लिए डिजाइन नहीं किये गये हैं।

भारतीय प्रबंध संस्थान - अहमदाबाद द्वारा ©1964 सुरक्षित।

संचालन व्यय किया गया जो प्रत्येक 100 हजार किलोग्राम दूध के लिए खर्च किया गया था; तो उसी कॉलम में उसी लाइन में दाईं तरफ के आंकड़े, 345, सूचित करते हैं कि 60/61 से अधिक 61/62 में संभाले गये दूध की मात्रा में वृद्धि द्वारा विभाजित 60/61 के लिए किये गये व्ययों के ऊपर 61/62 के लिए संचालन व्ययों में वृद्धि हुई है, और इसीलिए इसमें ऐसा दर्शाया जा सकता है कि, 60/61 में संभाली गई दूध की अधिकता में प्रत्येक अतिरिक्त 100,000 किलोग्राम दूध के लिए अमूल ने अतिरिक्त संचालन व्ययों में 34,500/- रु. का खर्च उठाया है।

हालांकि एक्जिबिट 0 के भाग ख में आंकड़े काफी कच्चे हैं, उसके बावजूद भी, वे उपयोगी हो सकते हैं। उदाहरण के तौर पर, भले ही लाइन 3, भाग ख में संभाले गये दूध के प्रति 100,000 किलोग्राम पर उपयोग में ली गई कुल पूंजी अपेक्षाकृत रूप से तीन वर्षों तक स्थिर बनी हुई है, फिर भी, ऐसा लगता है कि कामकाजी पूंजी के उपयोगों पर लाभ क्षमता अंत पर है और इसलिए अमूल को अब खुद ही अधिक कामकाजी पूंजी उपलब्ध करानी होगी। लाइन 7 में 1962/63 के दौरान संभाले गये दूध के प्रति 100,000 किलोग्राम पर डेयरी विकास व्ययों में तेजी से गिरावट दर्शायी गयी है, परन्तु ऐसा इसलिए है कि वह बजट-नियंत्रित आइटम है जबकि दूध संग्रह नहीं है।

लाइन 10 प्रति 100,000 किलोग्राम संभाले गये दूध का बिक्री मूल्य है, जो लाइन 9 में, लागत को 1963 में निर्णायक रूप से पीछे छोड़ देती है। डेयरी विकास व्ययों को "लागत" में शामिल करना चाहिए या नहीं, एक बहस के योग्य विषय है, यह किसी भी मामले में, 1963 में बिक्री मूल्य डेयरी विकास व्यय सहित लागत से अधिक था।

Potato Chips and Vodka

Potato production in India has been steadily increasing from 17 lakhs tonnes in 1950-51 to 92.5 lakhs tonnes in 1986-87. Punjab is the major producer with a production share of 11.2 lakhs tonnes in 1986-87. Moreover, average yield of potato is about 22 MT/hectare is much higher than the national average of 13 MT. However, the demand for use of potato is not increasing in relation to the stress on cultivation of potato in view of limited ways of consumption. As the crop production is elastic to the processing requirement, the cultivation of the same can be increased if assured off take is there in view of profitability of the crop. The prices generally tend to fall during the post harvest glut season which results in unremunerative prices and uncertain income to the potato grower. In view of this need, a project for potato processing in the form of chips and Vodka production is proposed by MARKFED, Punjab.

Objectives of the Projects

1. To ensure remunerative prices to grower members for their products.
2. Ensuring value addition to quality rated and damaged produce by undertaking processing of potatoes.

Location

Jullunder is the major potato growing district with annual production of 3.8 lakhs MT during 86-87. It possesses suitable weather and soil conditions and irrigation facilities and has an average yield of 20 MT/hectare. Since 70% of the potato production is coming to the regulated market around Jullunder for sale, MARKFED will not confront any problem with regard to raw material availability. High specific gravity potato tuber is important for making potato chips and these varieties are largely grown in the district. Four cold storage units with a total capacity of 10,800 MT are located in the district which facilitates for storage during peak season. Jullunder is an industrially developed area and possesses all infrastructural facilities like electricity, water, transportation, etc. Availability of land is not a problem in Jullunder. Considering all these factors, Jullunder has been selected as the location for the factory producing vodka and potato chips.

Manufacturing Process

Superior processing technology for Vodka production is very much essential for ensuring quality standards for surviving in the international market. Batches of potatoes are boiled at pressure and then starch liquefaction and saccharification processes are carried out by means of enzymatic preparations. Saccharified mash is forced to the fermenting vats to which the suitably prepared yeast is added. This alcoholic fermentation lasts about 70 hours.

Prepared by Professor Ramesh Gupta. Abstracted from project report for Manufacture of Potato chips and Vodka from Potatoes prepared for NCDC sponsored training programme conducted at Indian Institute of Management, Ahmedabad

Descriptive and analytical material is produced at the Indian Institute of Management, Ahmedabad, for use in class discussions. It is not designed to illustrate effective or ineffective handling of administrative problems. Opinions directly stated or implied in this material are of authors and do not necessarily reflect those of their organizations.

by Pramod Vaidya from 8th August, 2013 to 30th April, 2015

The fermented mash containing about 8% of ethanol is continuously fed to the stripping apparatus. The spirit is directed to the storage bins from the apparatus. The capacity of plant is for processing 16,500 tonnes of potatoes per annum. The plant also has the capability to process other raw material such as wheat, molasses, fruits, etc. Stillage amounting to 110% of potatoes processed is obtained as a byproduct of the process. This can be utilized as cattle feed. It is also observed that 930 litres of 100% rectified spirit, 60 litres of 100% post rectified spirit and 3.4 litres of fuel oils can be obtained out of 1000 litres of 100% converted spirit. The rectified spirit in turn is converted in to Vodka.

It is proposed to set up the potato chips plant with automated machinery covering both aspects of production of chips as well as packaging. The automated machinery would enable production of chips of uniform texture of high quality free from any contamination. The oil content in the chips will be reduced leading to reduction in cost of production. The integrated packaging system envisaged would reduce the amount of bacterial count and also reduce the development of rancidity in the product to ensure increased shelf life. The process of chip production involves sorting out the medium and large sized potatoes and removal of skin by abrasive peelers. Then they are washed and passed through slicer to make slices of uniform thickness. The slices are blanched in boiling water, cooled and then dipped in to a solution of Potassium metabisulphate. They will then be passed through a hot air chamber on a conveyor through drain of water and deep fried at a particular temperature. The wafers are then drained of excess oil and packed in polypropylene bags.

Market Analysis

The growth of potato wafer market has been estimated between 15-20% per year. Most of the units manufacturing potato chips are sweet shops and are in cottage scale sector. The production in organized sector has gone up from 44 tonnes in 1982-83 to 12000 tonnes in 1986-87. Four large scale units with a total capacity of 15000 tonnes are established in UP, MP and Maharashtra. These units have captured a good amount of market in metropolitan cities and have established their brand names. No unit in organized sector is operating in the states of Himachal Pradesh, Haryana, Punjab and J & K. The proposed unit can therefore concentrate its efforts in the northern states, particularly in Punjab. The unit shall supply the product in 100 grams and 200 grams packs in attractive colours. The society is required to adopt an aggressive marketing strategy to capture and sustain in the market. Initially the unit will not face any problem in marketing because of the distribution arrangements with the ITDC chain of hotels. Sales effort should be carried through the marketing network of MARKFED and NAFED.

Vodka is a 100% export oriented product and cannot be marketed locally. The technical consultants have assured to make arrangements for export of entire vodka produced to international markets at international prices. The marketing of Vodka, thus, will not pose any problem. Though it is proposed to carry export through agencies, the society plans to gather export market information and to get in contact with the end customers.

Organization and Management

Though MARKFED, Punjab would act as the promoter in the initial stages, a potato growers' co-operative society is proposed to be formed to take over control of the project. The society will procure the required quality of potatoes from grower members at remunerative prices. It will establish backward linkages through farm extension services and facilities for transportation of produce of the members. The society will establish

horizontal linkages with Punjab MARKFED, NAFED and others for exploring avenues of marketing its produce. For efficient operation of the project, the society would employ professionally skilled and experienced managerial and technical personnel at various levels depending upon the organizational requirements. An elected body of the society with its chairman would look after the management of the unit while the managing director (who is a professional) would be authorized to look after the day to day management of the unit. The estimated manpower requirement and their salaries are as follows.

Post	Nos	Gross salary/month/Head
Administrative staff		
Managing Director	1	7000
General Managers	3	5000
Managers	8	4000
Accounts officers	2	3000
Administrative assistants	18	2000
Steno typists	13	2500
Clerical staff	10	1500
Watchmen	6	1200
Factory supervision (for all 3 shifts)		
Senior engineers	6	5000
Junior engineers	9	3000
ITI certificate holders	12	2000
Factory labor for 1 shift		
Skilled workers	50	1600
Semi-skilled workers	30	1200
Unskilled workers	20	800

(Factory works on 3 shift basis)

Capital Investment

Total project cost works out to be Rs. 541.55 lakhs as given below:

	Rs. in lakhs
Land & building	42.00
Plant & Machinery	285.00
Misc. fixed assets	10.00
Expenses during construction period	30.20
Pre-operative expenses	4.25
Margin money required for working capital	154.90
Provision for Contingencies	15.20

	541.55
--	--------

The details are given in the annexure.

Means of Financing

As per the financing pattern the project would be financed on the debt equity ratio 70:30. Accordingly the pattern would be as under:

Share capital (30%)	
State Government, MARKFED, and farmer members	Rs. 162.47 lakhs
Loan from NDCDC (70%)	Rs. 379.08 lakhs

Assumption for Project Cost Calculations

The following assumptions have been made while working out cost of project and operational cash flows:

1. Land and Building

Total land requirement for both Vodka plant and wafers plant is around 20,000 sq.ft. The acquisition of land and development thereof would cost Rs 2 lakhs. Cost of erecting buildings amount to Rs 40 lakhs, (factory buildings 23.75 lakhs, administration buildings 3.75 lakhs, godowns and warehouses 3.75 lakhs, other miscellaneous civil works 8.75 lakhs.)

2. Plant & Machinery

Rs. 285 lakhs would be spent in acquiring and installing machinery for vodka production. This includes transportation and erection of machines and the expenses of foreign technicians and training of Indian technicians. No levy of import duty in respect of plant and machinery for manufacture of rectified spirit for Vodka has been made as the unit is going to be 100% export-oriented.

The estimated cost of an automated plant for potato chips is Rs 160 lakhs which along with other equipments for effluent treatment, power and lighting equipment and boiler, shall be taken on lease. The total cost of the leased equipments is Rs. 250 lakhs. The lease rent payment and other related cost (including taxes) would be around Rs. 100 lakhs per annum.

Miscellaneous Fixed assets

The cost of miscellaneous fixed assets has been estimated at Rs 10 lakhs. These items include furniture (4 lakhs), firefighting equipment (1 lakhs), cars, vehicles (2 lakhs) and other equipments (3 lakhs).

Expenses during construction period to be capitalized

Expenses during the construction period includes interest on term loan (18 lakhs), commitment charges (1.6 lakhs), mortgage expenses (5 lakhs), insurance (2 lakhs) and charges payable on account of forward exchange contract (3.6 lakhs). Total of these expenses

amount to Rs 30.20 lakhs and has been capitalized.

Pre-operative expenses

The total pre-operative expenses to be capitalized have been estimated at Rs. 4.25 lakhs and include consultancy, correspondence, travelling, etc.

Margin money for working capital

Margin money for working capital works out to Rs 154.9 lakhs. The details are as follows:

Item	No. of days Consumption Stock held	Stock Held in 1st year Rs. (in lakhs)	% Bank loan available
Raw materials	270	243.32	70
Finished goods stock	5	15.89	70
Stock of goods in process	5	11.56	70
Outstanding debtors	30	120.28	70
		391.05	

On this Rs. 273.75 lakhs would be available as bank loan, the balance Rs. 117.30 lakhs would have to be provided as margin money. Working capital needs would increase in proportion to the production.

In addition, the unit would have to provided equivalent of 20 to 30 days expense as working capital for (Salaries and wages Rs. 3.92 lakhs, cost of fuel, power, rent, insurance Rs.12.68 lakhs, and packing and sales expenses Rs. 21 lakhs). These requirements would not increase even in the subsequent years.

Contingencies

Provision for Rs 15.2 lakhs as contingencies has been made keeping in mind the time involved in implementation of the project to take care of inflation.

Operational Cost Data

Capacity

The capacity of vodka plant is 100 lakh litres of vodka per annum. However, Available capacity for manufacturing vodka has been assumed at 90 lakhs litres per year.

The capacity of wafers plant is 3500 tonnes of potato chips/wafers per annum, but the available capacity for manufacturing programme has been assumed at 2160 tonnes per year.

Taking into account the realities of production and the initial problems, the maximum utilization of the **available capacity** has been assumed as follows:

Year	% Utilization
1	50
2	60
3	70
4	80
5 onwards	90

Raw materials

Raw materials for Vodka are 80% potatoes and 20% cereals like wheat, maize, etc. At full capacity of operation, 16500 tonnes of raw material will be required for vodka production. The cost of raw material has been assumed at Rs 2/Kg though the vodka plant may work with damaged potatoes which is available at much cheaper rate.

Raw material for wafers is good quality of potatoes. For the available capacity of production 10800 tonnes of potatoes will be required. Here also cost of potato is assumed at Rs 2/kg. As the potatoes will have to be stored for 9 months during a year, cold storage charge of Rs 240/ton has to be added to raw material cost.

The requirements and prices of chemicals and consumables while working at available production capacity (assuming 300 working days in a year) are shown below.

Item	Quantity required/ day Kgs	Rate/kg Rs
For Vodka production		
Sulphuric acid	4560	3.50
Diammonium Phosphate	300	6.00
Ammonium sulphate	1680	6.00
Fat for foam reduction	240	40.00
Calcium Chloride	36	4.00
Sodium Carbonate	396	4.00
Flavours/ concentrates	120	120.00
For potato chips production		
Double refined groundnut oil	6000	40.00
Salt	500	1.50

Flavours	6000	3.00
----------	------	------

On all the above items, a contingency provision of 10 per cent should be made to account for unknown factors.

Labour

Labour costs are computed on the basis of the estimates of labour requirements as discussed earlier. In addition to the stated salaries, fringe benefits equivalent of 20 % would also have to be provided. These salaries would increase by about 10 % every year due to cost of living adjustments.

Power, Water and Fuel

On suppliers' recommendations, the power requirement has been estimated to be 512 KW/hour. The unit cost has been assumed at Rs 1.25 per unit against the local prevailing rate of Rs 0.70 per unit to take account of diesel as the partial source of supply. The factory would also keep a 250 KVA generating set which would consume 300 litres of diesel a day. The estimated water consumption in both the plants would be 84, 72,000 dm cube per year. The cost for the first year while operating at 50% of the capacity would be 17.68 lakhs for power and water consumption.

Lowest grade coal or rice husk can be used for a boiler if it is so designed. Therefore, using a fluidized boiler is proposed. Since the steam requirement is 3 to 4 tonnes per hour, the most ideally suited boiler would be of capacity 6 tonnes per hour which can be adjusted both for coal and rice husk. The calorific value of coal is 3000 kilo calories per kg. of husk. The boiler at 150 PSI is reduced to 5 atmospherics. The coal efficiency is 80% whereas that of rice husk is 70%. Coal consumption is 1400 Kg per hour at peak consumption and rice husk consumption is 1800 Kg per hour at peak consumption. The market price of coal is Rs 1000/ton whereas the market price of husk is Rs. 600 per ton. Considering that if we use coal, the peak consumption shall be 1400 kg per hour or at 80% efficiency (i.e., at 1120 kgs. per hour) would cost about Rs 1120 per hour. The actual requirement is 3 times the above and hence the cost per hour would be Rs.3360. The cost for the first year while operating at 50 % of the capacity would be Rs. 122.58 lakhs on fuel.

In addition, Contingencies at 10% of the cost of power, water and fuel is also provided in operating expenses. All these expenses varies with the level of production. All of the above equipments would be taken on lease.

Development & Extension services

The unit would have to incur expense for development and extension. These expenses would be Rs. 30 lakhs in the first year of operation and varies with the level of production in the subsequent years.

Packing

It is proposed to export Vodka directly in 1 litre bottle with printed label of the choice of the customer. The cost of packing has been taken at Rs 4 per bottle. Packing cost of potato chip pouch has been taken at 30 paise/Kg.

The other expenses incurred every year are Selling Expenses Rs. 35 lakhs and Export Market Development Expenses Rs. 24 lakhs, repairs and maintenance Rs. 10 lakhs, insurance Rs. 4

lakhs, miscellaneous factory expenses Rs. 4 lakhs and contingencies Rs. 12 lakhs.

Depreciation

The rates of depreciation on 3 shift basis as per existing regulations are 33.3% for plant & machinery and 10% for buildings.

Interests

Interest on term loan is 13.5% as per NCDC norms and interest on working capital requirement is taken as 18%.

Sales Revenue

Sales for Vodka have been assumed at international wholesale market price of US \$ 2.00 per liter. Sales revenue is to be reduced by 10% for providing for rejections, etc. The exchange value for US dollar is assumed Rs 15 per dollar. The wafers are sold in the internal market at an average price of Rs. 36 per kg.

Annexure I
Detailed Cost of Project

	Item		Cost in lakh Rs.
1.	Land and Site Development		
	a) Freehold required by private negotiations	acres	2.00
	b) Freehold acquired under Land "A" Acquisition Act	acres	(This land is being purchased from a MARKED company)
	c) Premium payable on leasehold land	acres	
	d) Cost of land leveling/developing of	acres	
	e) Cost of road roads including approach	acres	
	f) Cost of sewers drainage etc.	acres	
	g) Cost of fencing	acres	
2.	Buildings		
	a) Factory building for the main plant and equipment built area cost	10.375 sq.ft./@ Rs.100 per sq. . . ft	18.50
	b) Factory buildings for auxiliary services like steam supply, water supply, laboratory workshop, boiler house etc. - Built up area	3500 sq.ft.	5.25
	c) Administrative buildings - Built up area	2500 sq.ft.	3.75
	d) Godowns and warehouses - Built up area	2500 sq.ft.	3.75
	e) Misc. non-factory buildings like canteen, guest house, excise house etc. - Built up area	1000 sq.ft.	1.50
	f) Residential colony for staff and workers - Built up area	At present	not provided
	g) Open yard facilities for storage handling - Built up area	800 sq.ft. @ Rs.100/- per sq.ft.	0.80

Annexure I Conti...

	Item	Cost in lakh Rs.
h)	Cisterns, chests, tanks, basins, interns, hoppers, bins and other structures which are necessary for installation support and operation of plant and equipment and which may be constructed in RCC and such other structural Civil Engineering material and workmanship	2.00
i)	Civil Engineering works not included above	2.00
j)	Architects fee	0.50
k)	Garages	1.00
l)	Unforeseen expenses	0.95
	Total Building Costs	40.00
3	Plant and Machinery	
i)	Imported	
a	F.O.B. value	240.00
b	Provisions for price escalation	16.00
c	Shipping, freight, insurance @ 4% of (a) + (b)	10.00

	- Blowers	
	- Chlorinator with Booster Pump	
	- Paddle Agitator	
	- Bar Screens	
	Civil works viz. Screen chamber, grit channels, interconnection piping, valves etc.	20.00
4	Water Treatment and Boiler Systems	
	Water treatment equipment, boilers, storage tanks, etc.	25.00
	The boiler is 6 tonne per hour capacity using coal or rice husk	
	Total	221.35
	Contingencies	22.65
	Total	244.00
5	Add: Laboratory equipment	6.00
	Total of (1) to (5)	250.00

Assignment

- 1 Financial Analysis:
 - (i) Evaluate the project proposal by computing the following:
 - a. Payback period
 - b. Net Present Value
 - c. Internal Rate of Return
 - d. Benefit : Cost Ratio
 - (ii) Compute the break-even point
 - (iii) If you want to pass on all the benefits to the members what is the maximum price you can pay for their produce?
 - (iv) What is the risk involved in this project?
2. Since this is proposed to be a farmers' cooperative society, how would you design its organization and structure with a view to maximize participation, democratic functioning and self-reliance?
3. Following integrated approach, besides marketing what other activities/functions cooperative should undertake to increase farmers' income?
4. Prepare a detailed operations plan including project scheduling for implementing this project.

'Employees ready to take instructions from robots'

Employees are ready to take instructions from robots at work, but organisations are not doing enough to help their staff embrace artificial intelligence (AI), says a study conducted by Oracle and Future Workplace

93%

respondents would trust orders from a robot at work, says the study, which covered 1,320 US employees

70%

of people said they are using some form of AI in their personal life

24%

of employees are currently using some form of AI at work

■ Despite all the talk about people being worried about AI entering the workplace, the study found the opposite to be true with 79% of HR

leaders; 60% of employees believing a failure to adopt AI will have negative consequences on their own careers, colleagues and overall organisation

'POSITIVE IMPACT'

From an organisational standpoint, respondents believe embracing AI will have the most positive impact on directors and C-Suite executives. By failing to empower leadership teams with AI, organisations could lose a competitive advantage

THE BARRIERS

Some of the factors that are acting as major barriers to AI adoption in the enterprise include skill-gap, cost and security risks

Employees ready to take instruction from robots.

- The study says that, Employees are ready to get advised by robot but organisation are not doing enough help to their Staff for Artificial Intelligence (AI).
- The Study Conducted by Oracle 4 future workplace which covered 1,320 US employees found that 93% people would trust the instruction & order from robot.
- While 70% people said that, they are using AI in their personal life, Remaining only 24% people says they are using some of AI at work.
- People are worried about AI coming in workplace but the study founds that 79% of HR & 60% of employees believing a failure to adopt AI, will have negative effects on their own careers and overall organisation.

- From the point of view of organisation defendant believe grasping AI will have great impact. It will impact on directors and C-suite executive.
- Organisation will lose a competitive advantage by failing to allow leadership team with AI
- As Survey Study, Some of factors that are acting as major barriers to AI adoption in business include skill gap, Cost and Security risk.

Walmart to open 20 cash & carry stores in India over 3 years

PRESS TRUST OF INDIA
LUCKNOW, JULY 23

US RETAIL major Walmart will open 20 wholesale cash-and-carry stores in India in the next three years, a top company official said on Monday.

Besides, the company, which opened its second fulfilment centre here, is also in the process of opening more such centres to cater to online business-to-business (B2B) customers to tap the fast growing e-commerce in India. "We will launch two stores this year and eight stores next year and 10 stores a year after that," said Walmart India President and CEO Krish Iyer. Walmart has plans to add 50 stores in next five to seven years, he added.

It has signed MoU with the Uttar Pradesh government to have 15 stores in next few years in the state, Iyer said. "We have already

Smartphones lift Xiaomi revenue by 68%

Sales of Internet-connected devices, including smart TVs, also grew rapidly

REUTERS

Chinese smartphone maker Xiaomi Inc. reported second-quarter revenue surged 68%, as strong smartphone sales complemented a jump in revenue at its smaller, but fast-growing connected devices business.

Xiaomi, whose cheap smartphones have become very popular in price-conscious countries such as India, said on Wednesday its revenue from overseas markets more than doubled from the year-earlier period.

This is the first set of results released by Xiaomi since it raised \$4.72 billion in a high-profile IPO in June, valuing the firm at about \$54 billion, almost half of industry's earlier estimates of \$100 billion. The going has not been smooth for Xiaomi as a listed company, however. Its Hong Kong-listed shares have slumped by

All abroad: Xiaomi's revenue from overseas markets more than doubled from the year-earlier period. • AFP

about a fifth from their peak a month ago on concerns about Xiaomi's valuation and trading accessibility for mainland Chinese investors.

May assuage concerns

The results are likely to assuage concerns about the company's operations.

Revenue for the three months ended June 30 rose to 45.2 billion yuan (\$6.58

billion) from 26.9 billion yuan, the company said in a statement: It posted a net profit of 14.63 billion yuan compared to a net loss of 11.97 billion yuan in the year-earlier period.

International revenue was 16.4 billion yuan, accounting for 36.3% of total revenue. Sales of Internet-connected devices, including smart TVs, also grew rapidly.

Poco for 'premium' seekers

PRESS TRUST OF INDIA

With its eyes on the premium smartphone market in India, Xiaomi unveiled sub-brand Poco that will compete with high-end devices from the stables of OnePlus, Apple and Samsung.

Poco - which introduced its maiden smartphone 'F1' priced at ₹20,999 onwards - will use the manufacturing and supply chain as well as the after-sales network of the Chinese parent.

Pepsi changed tack under Nooyi, focussed on 'healthy snacks' market

The firm's international operations rely less on beverages and more on snacks

VARGHESE K. GEORGE
WASHINGTON

Indra Nooyi, who on Monday said she would step down as CEO of PepsiCo after 12 years at the helm, attempted to reposition the company's image at a time when consumers are increasingly wary of junk food.

Under her, PepsiCo began focussing on products that include fruits, vegetables, whole grains, nuts, and gave an emphasis on less sugar and fat. She has said this transformation would be a long-drawn one.

PepsiCo's international operations rely less on beverages and more on snacks, an area Ms. Nooyi is largely credited with reshaping and expanding as consumers shifted away from sodas and

Gentle steering: Indra Nooyi wants to delegate authority for others to grow, says Prof. Jeff Sonnenfeld. • AP

focussed on healthy foods.

The Frito Lay snacks business now contributes 46% in total operating profits, nearly double its beverage business. She has been overseeing 2.6 lakh global

employees of the company that also has under its umbrella, Tropicana juices, Gatorade, Quaker foods, and several soft drink brands including Pepsi.

Significantly, the compa-

ny's stock rose after Ms. Nooyi's announcement.

'Not the big boss'

What happens when the C.E.O., especially the female C.E.O., goes home at night, she was asked by an interviewer once. "Don't try to pretend that you're still the big boss, because you're not," she responded.

Jeff Sonnenfeld, professor at Yale School of Management said of her soft manners: "She wants to delegate authority for others to grow and allow them to make some mistakes that she knows she could have prevented. Indra doesn't want to tell you, but she generally is the smartest person in the room."

Samsung targets mid-range smartphones with high tech

New products, irrespective of the range, will be 'differentiated' in features: Koh

YUTHIKA BHARGAVA
MANGALURU

Amid intense competition in the mid-range smartphone segment, South Korean major Samsung Electronics has reworked its strategy to incorporate new innovations to its mid-range devices rather than limiting advanced features to just the premium range of products.

"In flagship model, we are quite strong and dominant in the Indian market, but in the mid segment the competition is very hard," said D.J. Koh, president and CEO (IT and mobile communications) at Samsung. "That is the reason, earlier this February, I changed the strate-

gy," he said. Previously, the company's strategy was to bring in the technology from a flagship model (premium model) to the mid and mass market smartphones (up to

₹20,000), he said. "But I have totally changed it...starting this October-December, we will launch new products that will be differentiated in features and

functions and technologies regardless of whether flagship or not... Last nine months, we worked on this strategy to adopt new technologies in the mid-end smartphones," Mr. Koh said.

New version

Mr. Koh said in November, the company would announce the new version of Bixby, its voice-powered assistant, which will come in mid-range phones as well.

Mr. Koh, who was in India to unveil the latest Galaxy Note 9 smartphone priced ₹67,900 onwards, said the company was "excited" about 5G technology and the possibilities it brings.

Kia Motors to roll out Seltos on July 31 from Andhra plant

South Korean auto major Kia Motors is all set to roll out its first made in India mid-SUV, Kia Seltos, from its plant located in Anantapur in Andhra Pradesh on July 31, according to company sources. "Kia Motors will roll out the first car from its state-of-the-art manufacturing facility in Anantapur, in Andhra Pradesh on July 31. With this, the company will begin the mass production of the Kia Seltos for the Indian market," sources said. Earlier in January, the world's eighth largest automaker, began the trial production of Kia Seltos, and within six months the final product is ready. The Kia Seltos has already seen more than 6,000 pre-bookings in a day, they added. The 536-acre-Anantapur facility is capable of an annual production capacity of up to 300,000 units, boosting Kia's global manufacturing capability, the automaker said.

NCLT stays own order on IL&FS auditors for 4 wks

PRESS TRUST OF INDIA
Mumbai, 25 July

The National Company Law Tribunal on Thursday stayed its order allowing the government to prosecute the three partners of Deloitte and BSR Associates for their alleged culpability in the IL&FS fraud following a plea to allow them to appeal at the tribunal.

Staying its own order of July 18, the Mumbai NCLT gave 10 days to Udayan Sen and Kalpesh Mehta of Deloitte, and Sampath Ganesh of BSR Associates to file an appeal and said the impugned order would remain inoperative for four weeks from Thursday.

"We have heard the argument of the senior counsel for the applicant and the arguments advanced by joint director on behalf of the government. Since our order is appealable, the applicants are free to file a petition.

"Therefore, we stay the oper-

ation of the impugned order and allow the applicants 10 days from today for filing an appeal," the tribunal said, listing the matter for hearing on August 6.

On July 18, the NCLT had given the go-ahead to the corporate affairs ministry to prosecute Deloitte and BSR Associates for failing to detect and report the scam that took place across the now bankrupt IL&FS group and 21 other entities, when they were the auditors of IL&FS Financial Services.

The NCLT order is based on the findings of the probe

conducted by the Serious Fraud Investigation Office.

The tribunal also allowed the government to implead Udayan Sen and Kalpesh Mehta, partners of Deloitte, and BSR Associates partner Sampath Ganesh.

While Deloitte resigned as the auditor of the IL&FS group companies in FY18, BSR, an affiliate of KPMG, did so in June well after the government sought to ban them from for five years. The NCLT is yet to give its nod to the government to do so.

NEWS ANALYSIS NO : 1

'Electric scooters to hit 5% of two-wheeler market in FY23'

Greaves Electric Mobility projects sales of two-wheeler EVs will balloon to 700,000 units in FY23

SHABEET DAS GUPTA
New Delhi, 28 August

Greaves Electric Mobility (GEM), which sells the Ampere brand of electric scooters, projects that the inflection point for the conversion of internal combustion engine (ICE) scooters to electric ones will be reached in FY 23, hitting 4-5 per cent of the total two-wheeler market. In FY 22 the penetration of electric two-wheelers was less than 2 per cent of the market.

Elaborating on its upbeat view of the industry, Nagesh A Basavanhall, executive vice-chairman of Greaves Conson Ltd, of which Greaves Mobility is a subsidiary, says: "Our projection is that the industry will hit sales of 700,000 electric scooters in this financial year, compared to 250,000 in FY 22. This will be the real inflection point which is needed as penetration of electric scooters will hit 4-5 per cent."

He projects, moreover, that by 2027 as much as 30-35 per cent of ICE scooters, whose current sales are around 6-7 million per annum, will be converted to electric.

Basavanhall should know. With the company accounting for 14 per cent to 15 per cent share of the electric scooter sales in the country, it has been amongst the top four players in the market since it acquired electric scooter company Ampere in phases from 2019.

The confidence, says Basavanhall, comes from the fact that while GEM sold around 65,000 electric scooters in FY 22, in the first quarter of FY 23, it

CHARGING UP Sales of electric scooters

Source: Greaves Electric Mobility, industry estimates

has managed to sell close to half those numbers — around 29,577. As a result, the company is doubling its capacity so that it can make 25,000 electric scooters a month.

Though he concedes that the incidents of electric scooters catching fire were a dampener, Basavanhall points out that the chip shortage which had hit the industry in the previous two to three quarters, is now easing. However, based on overall registrations (of eight companies, not including incumbent

ICE players), the market has seen either stagnant numbers, or falling month on month since May this year. In July, for example, registrations fell by 5 per cent over June. And there was a sharp decline of 24 per cent in May over April.

Unlike Ola Electric, which has decided on an initial average selling price (ASP) of ₹1.5 lakh (it has just announced an electric scooter in the ₹99,000 range), GEM has focused on the sweet spot of the ₹80,000-Rs 90,000 market. "We have concentrated

on the heart of the market, which covers around 150 million households. We see the price-volume equation existing in this range, and we can operate here profitably," says Basavanhall.

That said, the company has been pushing up its average selling price after it acquired Ampere, which was priced at just ₹40,000. It is also working on some products with a higher range, speed and features, which will be in the above ₹1 lakh category. GEM expects to announce these in a couple of quarters.

Again, unlike Ola Electric, which has gone with direct delivery to customers, GEM has already got 650 retail distributors and plans to add 20-30 more every month. Also, unlike its rival, the company has avoided getting into advanced chemistry cells for batteries under the government's production-linked incentive (PLI) scheme.

Basavanhall says that these are capital intensive, and the market is still evolving with alternatives to lithium ion like sodium ion. GEM, he adds, has relationships with many companies that will manufacture the batteries in the country and it plans to buy from them.

However, he admits that the company is still in talks with the government to allow it to participate in the PLI scheme for making electric two-wheelers, as Ola Electric, Bajaj Auto and TVS have been eligible for the scheme. Unfortunately, says Basavanhall, the net worth needed to be eligible for the PLI scheme was too high for GEM, as it is neither a start-up nor a very large company.

'Electric Scooters to hit 5% of two-wheeler market in FY 23'

Greaves Electric Mobility (GEM), which markets the ampere band electric scooter. Internal combustion engine (ICE) scooter to electric scooter will be reached in FY-23 reaching 4-5 per cent of the total.

Moreover, by 2027 30-35 percent of ICE Scooters with current annual sales of around 6-7 million will be converted to electric.

That said, the company has been pushing up its average selling price after it acquired Ampere, which was priced at just ₹ 40,000/. It is also working on some product with a higher range, speed & features, which will be in the above ₹ 1 Lakh category. GEM expects to announce these in a couple of quarters.

Amazon Seller Services reports ₹3.6K-crore loss

PEERZADA ABRAR
Bengaluru, 12 September

Amazon Seller Services, the Indian marketplace arm of the American e-commerce giant, reported ₹21,633 crore as revenue for the financial year 2021-22 (FY22), a 32 per cent jump over the last financial year.

The company reported a net loss of ₹3,649 crore in FY22, according to regulatory documents sourced from business intelligence platform Tofiger. This is a 23 per cent decrease over the last financial year. The company's total expenses for the financial year stood at ₹25,283 crore.

Amazon Pay (India), the e-commerce firm's digital payments arm, reported FY22 revenues of ₹2,062 crore, a 16 per cent jump over the last financial year. Amazon Pay reported a net loss of ₹1,741 crore in the same financial, according to Tofiger. This is a 15 per cent increase over the last financial year. The company's total expenses for the financial year were ₹3,793 crore.

Amazon Internet Services (AISPL), which sells AWS (Amazon Web Services) cloud computing services in India, reported revenues of ₹8,982 crore, a 65 per cent jump over the last financial year. The company reported a net loss of ₹2.3 crore. This is a 112 per cent increase over the last financial year. The company's total expense for the financial year was ₹8,905 crore.

Amazon India has slashed selling fee by 50% for new vendors on its platform ahead of festival season sale

Amazon reported the numbers as it prepares to host its one-month-long flagship sale event The Great Indian Festival (TGIF) from September 23 to tap the festival season.

Amazon India said on Monday that all new sellers registering with it between August 28 and October 26 and launching within 90 days from the date of registration shall be eligible to avail of a 50 per cent waiver on selling fees across all categories. "This festival season our focus continues to be on sellers potentially maximising their success while endeavouring to provide our customers unmatched value and the convenience of shopping from anywhere, anytime," said Vivek Somareddy, director, fulfilment channels at Amazon India.

Solar energy may power agriculture sector needs

ANIL SHARMA

Jaipur, 12 September

The Rajasthan government is toying with the idea of fulfilling electricity demand in the agriculture sector through solar energy, officials said.

Rajasthan Chief Minister Ashok Gehlot — in his Budget speech on February 23 — had said to provide relief to farmers for irrigating fields at night, an arrangement is being made to supply electricity in two shifts during the day in 16 districts.

He said that he was aware of the problems faced by farmers irrigating their fields at night, especially during winters. The CM said he would provide electricity to the remaining 17 districts in a year.

Chief secretary Usha Sharma said that fulfilling the electricity supply in the agri-

culture sector through solar energy would provide relief to the government from the heavy subsidy being given to the sector. It will also reduce the amount spent on electricity by the farmers.

She said that efforts are being taken to make Rajasthan one of the largest suppliers of solar energy. The state has immense potential in solar energy and has emerged as a leading state in this sector.

Sharma said that directions

are being given to decentralise solar energy generation by setting up small solar projects, according to the requirements of the districts.

Rajasthan's solar generation potential has been assessed at 142 Gw. The state government plans to harness this potential systematically and has set an ambitious target of 30 Gw capacity by 2024-25.

According to estimates, the state receives the highest amount of solar radiation in the country (5.72 Kwh/m²/day). Also, it has the highest number of clear sunny days in a year.

Discussing the 'PM Kusum Scheme', the chief secretary said that instead of individual farmers, if groups of farmers adopt it with cooperatives, then better results could be obtained.

Tatas kick-start A-I fleet expansion via leasing

Airline to offer premium economy class

DEEPAK PATEL & ANEESH PHADNIS
New Delhi, 12 September

In its first move to significantly expand the fleet after the Tatas took over, Air India has leased 25 Airbus narrow-body aircraft and five Boeing wide-body planes. These will enter service starting December, the company said on Monday.

A wide-body plane has a bigger fuel tank, allowing it to travel longer distances such as India-US routes.

"The aircraft being leased include 21 Airbus A320neos, four Airbus A321neos and five Boeing B777-200LRs," Air India said. The lessors will deliver the planes by 2023-end, helping the airline increase its fleet size to 143 aircraft.

Changing its business model, Air India has decided to introduce premium economy class in all newly-leased planes. Air India's existing fleet is mostly limited to economy and business class. A few planes in its fleet also have first class.

Vistara, which is a 51:49 joint venture of the Tata Group and Singapore Airlines, is the only other airline in India that offers premium economy class.

To expand its fleet, Air India will also purchase planes and has been in discussion with Airbus and Boeing for the last couple of months. Air India decided to go for immediate leasing to prevent a delay in fleet expansion.

Govt looks to privatise PSUs in fertiliser sector

NIKUNU OHRI
New Delhi, 6 September

The Centre may look at privatising public sector undertakings (PSUs) in the fertiliser sector. It could be the first non-strategic sector where the government may implement its new Public Sector Enterprises (PSE) Policy, 2021.

The central government is learnt to be considering Rashtriya Chemicals and Fertilizers, National Fertilizers, Fertilizers and Chemicals Travancore (FACT), Fertilizer Corporation of India, and other fertiliser PSUs for privatisation. The process of privatising fertiliser PSU Project & Development India (PDIL) is already underway, and the Centre has received a good response from interested parties.

The Committee of Group of Officers (CGO), chaired by the NITI Aayog chief executive officer, is learnt to have identified these PSUs for privatisation and a sectoral note has been prepared. The CGO is tasked with identifying PSUs in non-strategic sectors for closure or privatisation. The note is said to have been prepared in consultation with the administrative ministry.

Besides the NITI Aayog CEO, the CGO comprises secretaries of the Department

► Rashtriya Chemicals and Fertilizers, National Fertilizers, Fertilizers and Chemicals Travancore, and Fertilizer Corporation of India may be considered for privatisation

► The Committee of Group of Officers, chaired by NITI Aayog CEO, is learnt to have prepared a sectoral note

► After sectoral and PSU identification, the Department of Public Enterprises will seek in-principle approval from CCEA

► Centre intends to exit non-strategic sectors

of Investment and Public Asset Management (DIPAM), the Department of Public Enterprises (DPE), the Department of Economic Affairs, and the secretary of the concerned ministry.

According to the PSE policy, 2021, the government will look at leaving non-strategic sectors, such as fertiliser, steel and tourism, by privatising or closing PSUs.

According to the policy, after sectoral and PSU identification, the DPE will seek in-principle approval from the Cabinet Committee on Economic Affairs (CCEA). Once approved by the CCEA for divestment, DIPAM will initiate the privatisation process. In case of closure of a PSU in a non-strategic sector, the DPE will drive the process, along with the administrative ministry. The closure timeline of PSUs has been revised to about eight months from approval from the CCEA.

Based on the latest Public Enterprises Survey, eight PSUs under the Department of Fertilizers - FCI Aravali Gypsum & Minerals India, FACT, Hindustan Fertilizer Corporation, Madras Fertilizers, National Fertilizers, PDIL, Rashtriya Chemicals and Fertilizers, Fertilizer Corporation of India — collectively reported a net profit of ₹1,071 crore in FY21. The ninth PSU under the Department of Fertilizers, Brahmaputra Valley Fertilizer Corporation, reported a loss of ₹138 crore in FY21.

In FY20, six fertiliser PSUs had reported a profit of ₹1,293 crore, against eight PSUs reporting a profit of ₹880 crore in FY19.

The committee of Group of officers (CGO) chaired by the MITI Aayog chief executive officer, is learnt to have identified these PSUs for privatisation & a sectoral note has been prepared.

According to the PSE policy, 2021, the Govt. will look at leaving non-strategic sector, such as fertiliser, steel & tourism, by privatising or closing PSUs.

In FY 20 six fertiliser PSUs had reported a profit of ₹ 1,293 crore, against eight PSUs reporting a profit of ₹ 880 crore in FY 19.

Essar Group bets \$3.6 billion on decarbonisation in India and UK

Will invest \$1.2 bn to develop a global supply hub for low-carbon fuels

DEV CHATTERJEE

Mumbai, 27 February

Essar Group on Monday announced a fresh investment of \$3.6 billion in setting up an Essar Energy Transition (EET) to spearhead green energy transition projects in the UK and India.

The green energy projects will include an investment of \$1.2 billion in green ammonia manufacturing in India.

"We are setting up a green ammonia plant in India which will export products to the UK and other countries," said Prashant Ruia, director, Essar Group. The projects are expected to be commissioned by 2026-27.

The group will develop a range of low-carbon energy transition projects over the next five years, for which \$2.4 billion will be invested across its site at Stanlow, between Liverpool and Manchester.

EET will include Essar Oil UK, the company's refining and marketing business in Northwest England; Vertex Hydrogen, which is developing 1 gigawatt (Gw) of blue hydrogen for the UK market, with follow-on capacity set to reach 3.8 Gw; and EET Future Energy, which is developing 1 Gw of green ammonia in India, targeted at UK and international markets.

In a statement, the group said the transition will also include Stanlow Terminals, which is enabling storage and pipeline infrastructure; and EET Biofuels, which is investing in developing 1 million tonne (mt) of low-carbon biofuels.

Ruia said ammonia will be manufactured in India and then shipped to the UK, Europe, and globally to meet expanding market demand for

EET DECODED

Essar Energy Trade:

► **Essar Oil UK:** The company's refining and marketing business in Northwest England

► **Vertex Hydrogen:** Developing 1 Gw of blue hydrogen plant for the UK market; follow-on capacity expected to reach 3.8 Gw

► **EET Future Energy:** A 1 Gw of green ammonia unit in India, targeted at the UK and international markets

► **Stanlow Terminals:** Developing a storage and pipeline infrastructure in the UK

► **EET Biofuels:** 1 mt of low-carbon biofuels

green hydrogen.

"We are in talks with a few state governments to select the site. We will decide on the manufacturing site in India very soon," said Ruia.

EET's investment in India will help deliver on the country's emerging hydrogen ambition. The Indian government's supportive regulatory framework is designed to help position the country as a leading global hub of green hydrogen production and exports, as set out in its National Green Hydrogen Mission, Essar Group said in a statement.

The group is in talks with several banks to fund the project which will be a mix of debt and equity.

Diversified business conglomerate Essar Group has launched an investment programme - Essar Energy Transition [EET] through which it will invest a total of \$3.6 billion in developing a range of low-carbon energy transition projects over the next-5 years. The investments would be made in the UK and India.

Through its energy transition arm EET, the group plan to raise \$2.4 billion across its site at Stanlow, between Liverpool and Manchester, and \$1.2 billion in India.

Essar Group is an Indian multinational conglomerate company, founded by Shashi Ruia in 1969. As Essar Global Fund Ltd [EGFL], the company controls a number of assets across the core sectors of energy [oil refining, oil and gas exploration, and production, power], infrastructure and logistics. Essar holds nearly 100% stake in all its investments.

CAUGHT IN BIKE TAXI BAN CROSSFIRE...

Swiggy, Zomato riders face challans in call of duty

ANURAG GUPTA
New Delhi, 1 March

It was a routine delivery run for Piyush Kumar, a delivery partner for Swiggy, on the morning of February 21, when he was stopped by Regional Transport Office (RTO) officials.

After being slapped with a ₹5,500 fine and having his motorcycle impounded, the father of two was unable to work for the next five days. "The police are fining us riders baselessly. Paying off such hefty amounts is not realistic for us," he said, adding, "I am hoping to get a refund and some more clarity from the government on the new bike taxi policy so that instances like mine are not repeated."

Although Kumar's fine was ultimately brought down to ₹1,000 after an appeal in Delhi High Court, he ultimately ended up coughing

up a total of ₹4,500 to cover the fine, legal fees, and other miscellaneous charges.

Cases like Kumar's have begun to surface more frequently in the past few days.

Despite the order pertaining to taxi services only, companies claim that their delivery partners have been unfairly targeted

The recent ban on bike taxis by the Delhi government has left delivery partners working for restaurant aggregator platforms like Swiggy and Zomato stuck between a rock and a hard place.

Although the order pertains to taxi services only, companies claim their delivery partners have been unfairly targeted and issued challans, causing disruptions and confusion in the last-mile delivery ecosystem. As a result, consumers using these services are also being affected due to the consequent delivery delays.

"Our delivery executives are being wrongly issued challans, although the notification applies only to bike taxi service providers," said

a spokesperson for Swiggy.

Some of the challans have been more than ₹15,000, claimed Swiggy.

"This has understandably created fear and apprehension among our delivery executives," added the spokesperson.

The firm's Gurugram-based rival Zomato echoed similar thoughts.

"While the notice is only for passenger vehicles, there is some misinterpretation on the ground," a company spokesperson told *Business Standard*.

The transport department of Delhi on February 20 issued a public notice to ride-sharing platforms — Ola, Uber, and Rapido — to stop their bike taxi services.

"It has been brought to the notice that two-wheelers having non-transport (private) registration mark/numbers are being used to carry passengers on hire, which is a purely commercial operation and violation of the Motor Vehicles Act, 1988," read the transport depart-

ment notice.

The order stated that the first violation will attract a penalty of ₹5,000, while the second would lead to a fine of ₹10,000 and jail time.

Dinker Vasishth, Swiggy group vice-president, public policy, regulatory and sustainability, in a letter to the Delhi transport department, has requested the Delhi government to intervene in the matter. "The directions have been misinterpreted by RTO officials, who have started issuing challans to delivery partners," he said.

"This has led to disruption of services and confusion among delivery partners, who are now apprehensive of providing service as they fear they will be penalised and harassed while on duty," the letter read. Swiggy claims that it will continue to work closely with the authorities to seek clarity on the Government's directive. "Ensuring that our delivery executives can operate smoothly and serve our customers without any interruptions is our top priority," the Swiggy spokesperson added.

By :- Arjuman Gupta, New Delhi.

Food delivery apps Swiggy and Zomato have complained to the Delhi govt. against challans being issued to their 2 wheeler riders in the name of a ban on bike taxi services in the national capital.

The food delivery platforms have also sought clarification from the govt. on the directive while claiming that there has been misinterpretation of the notice as the ban is applicable on bike taxi service providers.

Piyush Kumar said that he is hoping to get a refund and some more clarity from the govt. after fining him ₹5,500. His fine was brought down to ₹1,000 after an appeal in Delhi high court.

Some of the challans have been more than ₹15,000 claimed Swiggy.

Ice cream sold over the counter but not prepared in outlet to attract 18% GST: AAR

INDRIMA DHASMANA
New Delhi, 7 March

Sale of ice cream would draw 5 per cent or 18 per cent goods and services tax (GST), depending on how it is sold.

The one sold over the counter and not prepared in the outlet concerned would be treated as ice cream from parlour. It would hence attract 18 per cent GST, ruled the Gujarat-based Authority for Advance Rulings (AAR). The sale of such ice creams would be treated as the supply of goods, it said. On the other hand, an ice cream when ordered and supplied along with cooked or prepared food through the outlets would assume the character of composite supply. It would draw 5 per cent GST without input tax credit. Such a sale would be treated as composite supply with food as the principal one and come under restaurant services, ruled the AAR.

The AAR interpreted the GST Council decision and relevant circulars in this regard. Sandeep Sehgal, partner, tax, AKM Global, said, "The AAR has clarified that the applicability of GST on the sale of readily-available ice cream by restaurants and eating joints shall be 18 per cent. However, when served with food in a restaurant, it has been considered naturally bundled. Hence, a composite supply would be taxable at 5 per cent. However, when taxed at 5 per cent, the restaurant owners are not eligible to claim the credit of GST paid on purchase of ice creams."

The authority announced the order on an application filed by Ahmedabad-based HRPL Restaurant, which runs a chain of eating joints. The AAR found that ice cream sold by outlets of the applicant is already manufactured. The applicant had sold its ice cream division way back in 2017.

"Therefore, we hold that ice cream sold by the applicant's outlet over the counter would not fall within the ambit of 'restaurant service' and is the supply of goods. Hence, it would attract GST at the rate of 18 per cent," the AAR ruled.

Business isn't ringing for sub-₹10,000 smartphones

Strong demand for 5G models and higher component costs among reasons

ARIYAMAN GUPTA
New Delhi, 15 March

Smartphones costing less than ₹10,000 — a segment dominated by Chinese manufacturers — is in dire straits in the Indian market as demand shifts to 5G models, and input costs rise amid low margins.

The segment accounted for 46 per cent of India's smartphone market in 2021 and fell to 31 per cent in 2022, according to IDC India, a market research firm. It suffered despite the Indian telecom market, which includes smartphones, core wearables and TWS mobile headsets, doing better than global markets in 2022.

IDC expects the segment to drop in demand and shipments in 2023, as device costs are unlikely to fall. "Due to lower margins in this price segment, fewer vendors are keen on launching devices in this segment, compromised for key feature sets with low demand," said Upasana Joshi, research manager, client devices, IDC India.

Analysts said the segment is shrinking due to increased average selling price (ASP) of smartphones, rising inflation, higher component costs, currency fluctuations, and the arrival of 5G devices.

"The majority segment is dominated by 4G devices, which got hit in terms of supplies during 2020/21 and will continue to remain so going further. There were few telco vendor partnership models launched in previous years in sub-₹10,000 segment, which had middling demand as well," said Joshi.

The ASP of smartphones in 2022 stood at ₹17,032, a 17 per cent rise compared to the previous year, according to data from GfK, another market intelligence firm. This increase was due to consumers shifting to a higher price band, fuelled by their changing needs. As many as 37 per cent of smartphones sold in India in 2022 cost ₹15,000 or more. This is an increase of 9 basis points in contribution when compared to 2021, GfK data showed.

5G calling

Demand for premium devices is increasing, with the revenue contribution of 5G models moving to 44 per cent in 2022. At the same time, smartphones with larger storage capacity — of more than 256 GB — grew 122 per cent in revenue in 2022.

"The combination of shift in consumer needs, leading to requirement for

MOVING UP THE VALUE CHAIN

37%
Volume share of smartphones priced at ₹15,000 and above

44%
Revenue share of 5G smartphones in 2022

better features like higher memory, 5G, etc., and availability of easier purchase options like EMI, cashbacks, and trade-ins have all contributed to the shift to higher price bands. The component shortage and the pandemic also played a part and further impacted this shift," said Kartik Vasudevan, telecom market expert at GfK India.

Revenue from the offline market for sub-₹10,000 smartphones declined from 19 per cent in 2021 to 13 per cent in 2022.

Smartphones in this segment do not offer high margins, which is another challenge for original equipment manufacturers (OEM).

"After Covid-19, there has been a re-calibration of the supply chain where it is now

focused on value rather than volume. Due to a shortage of components and raw materials, companies are focused more around safeguarding revenues," said Faisal Kawoosa, founder and chief analyst of technology market research firm Techarc.

"We have seen a stagnation in smartphone shipments recently. Hence, OEMs need to sustain growth in terms of revenue. Companies are, therefore, focusing on higher priced segments where they are able to sell less units, albeit at higher revenue growth," he said.

Key players in the segment include Xiaomi, Realme, and Transsion, which cumulatively hold some 70 per cent of the market share.

On the back of rising inflation, coupled with limited demand, smartphone major Xiaomi witnessed a fall in the sub-₹10,000 segment from 40 per cent in 2021 to 30 per cent during 2022.

"Stepping into 2023, we are laying out a streamlined, cleaner portfolio with a very focused approach for each segment. We will continue to offer a wide range of options in the sub-₹10K segment," said a Xiaomi spokesperson.

The firm recently introduced Redmi AI smartphone, priced at ₹6,499 to cater to the market.

"We are committed to offering meaningful innovation with a resolute focus on quality and efficiency. With appealing product lineups and a strong growth strategy, we plan to strengthen our position across categories," the spokesperson added.

Queries sent to Realme did not elicit any response at the time of going to press.

Industry watchers believe that, with the current focus of OEMs on 5G, higher memory and camera features, the shift in the price band is likely to continue towards handsets above ₹10,000 in the next few quarters.

"Vendors are also vacating this space eventually," said IDC's Joshi.

Techarc's Kawoosa said the segment's success would depend on getting the 5G feature in the sub-₹10,000 category. "There is going to be a re-calibration of market leadership in this category. Brands like Lava and Nokia will likely be better positioned in this segment," he said.

GfK's Vasudevan said that the sub-₹10,000 segment will still be important for first-time smartphone users and its growth will come from the conversion of 2G feature phones to smartphones.

Haldiram Snacks of Noida and Haldiram Foods International, headquartered in Nagpur (Haldiram's Nagpur), are in the process of merger. Upon merger, the combined entity may also consider raising capital via an initial public offering (IPO).

The merged entity will also invest ₹2,000 crore-₹2,500 crore, after the fundraising exercise, over the next five-six years to expand its capacity.

"We don't have a concrete dialogue going on for listing at this point. We are thinking about an IPO to explore the value within the organisation.

Apart from that, we are open to listening to external investors and we are always welcome to suggestions," Avin Agarwal, director, Haldiram Foods, told *Business Standard*. He further said: "We are not looking to raise capital to just get cash. If at all we raise capital, that would be to expand. But right now, whatever we are doing is with internal accruals." About the merger of the two businesses, Agarwal said the move is because of increased competition in the segment and that it will be easier to fight off

competition as a combined entity. He said the merger will be over this year itself. At this point, only the snacks and sweets verticals of both businesses are in the process of merger; the restaurant part of both entities will be merged on a later date.

According to Haldiram's Nagpur, which expects to report ₹3,500 crore in revenues for FY23, its snacks part of the business is growing at 13 per cent, while the snacking industry is growing at 20 per cent. The sweets segment of Haldiram's Nagpur is growing at a higher pace of 25 per cent. Agarwal said that the revenue is growing at 22 per cent year-on-year.

According to Capitaline data, Haldiram Snacks saw its consolidated revenue at ₹5,195 crore in FY22.

In the traditional namkeens segment, the combined entity has a market share of 50 per cent and in the organised space, it has a market share of 60 per cent.

Reliance close to sealing 5G deal with Samsung

Advanced talks on to rope in South Korean major as third-party tech provider

SURAJEET DAS GUPTA
New Delhi, 28 March

Reliance Jio is in advanced talks with South Korean consumer electronics and telecom gear maker Samsung for the latter to be its third party technology provider, complementing its efforts to roll out a 5G network across the country.

Reliance has developed its own indigenous 5G technology, including the core and 5G radios and plans to launch stand-alone 5G services - unlike its rivals who will start with non-standalone 5G in which the core of the network will still be on 4G.

Samsung and Reliance have taken the crucial steps towards a collaborative effort by starting 5G test trials in Mumbai, a key city in the 5G sweepstakes. Reliance is also testing its 5G solutions on its own in Mumbai and in Jamnagar.

Even earlier, the two companies enjoyed a close relationship as it was Samsung which built Reliance Jio's 4G network after winning the bid despite tough competition from Huawei and European players. Reliance's 5G trial tests with Ericsson in Delhi and Nokia have not yet begun, according to sources.

The same sources say Reliance Jio has received approval to use Samsung's equipment after Samsung was recently endorsed as a 'trusted source' by the National Security Council Secretariat.

Under the government's telecom rules, it is mandatory for an OEM player to gain this 'trusted' tag before it can supply any equipment to telcos. Telcos wishing to buy equipment for OEMs first need to make an application to the Secretariat saying they would like to buy equipment from a certain company. The next step is for the OEM to apply for the 'trusted source' tag. Jio received similar permissions for Ericsson, Nokia, Dell and Cisco.

Owing to the Chinese-India conflict on the border in Ladakh, the Chinese giant Huawei has yet to receive permission to

TECH PUSH

- ▶ 5G trials underway in Mumbai
- ▶ Reliance and Samsung had a partnership to roll out its 4G network
- ▶ Reliance has publicly stated it was open to working with "third party" technology providers
- ▶ Samsung has been cleared as a "trusted source" without which one cannot procure telecom gear from them
- ▶ The company has built its 5G core and radio indigenously
- ▶ Open radio access network provides telcos opportunity to collaborate on 5G technology

participate in the 5G telecom gear sweepstakes in India.

At a recent event, Matthew Oommen, Reliance Jio president and the company's key technology person, said Reliance was currently focusing on building the various 5G platforms and was not shy of collaborating with 'third party' technology providers in addition to its own. Reliance Jio did not, however, comment on the issue. Nor did Samsung respond to queries.

Reliance is developing not only its own indigenous 5G technology but is also ensuring the back-end manufacturing of telecom gear within India. For instance, it recently announced that it will be setting up a JV with US-based Sanmina Corporation, the sixth largest electronics manufacturing services company in the world, and will invest Rs 1,670 crore in its Indian unit.

The JV plant, which is eligible for the government's Production Linked

Incentive scheme in telecom products, will be used for Reliance Jio's telecom gear needs.

The ambition at Reliance Jio is to become a global player able to take on incumbent telecom gear players such as Ericsson, Huawei and Nokia.

However, open radio network technology, rather than proprietary technology where software and hardware used to be bundled and offered by the same player, lies at the core of 5G. Telcos now have the upper hand as they can choose to collaborate with a range of technology providers and buy equipment from a whole range of players, as well as marry them with their own indigenous technology.

For Samsung (one of the newest telecom gear players), Reliance has been its dominant customer for 4G, apart from telcos in its own home market as well as in Japan.

TITLE:- RELIANCE CLOSE TO SEALING

5G DEALS WITH SAMSUNG.

Jio and Samsung have also worked together during 5G trials of the former, which started back in June 2021.

Now, according to a Business Standard report, Jio is in advanced talk with the South Korean tech giant for making the latter its third technology partner for rolling out 5G.

If Samsung gets to work with Jio for 5G on a large scale and then also get a contract from Airtel, it would be in the company's interest to produce locally and enjoy the benefits of PLI scheme for the telecom sector.

Samsung has communicated with the Indian Government that it is interested in being a part of the production linked scheme (PLI) 2.0 for the telecom sector.

Samsung might partner with Airtel as well, and having two big customers, including Jio and Airtel, would be very beneficial for the company in the long run. Thus, setting up manufacturing facilities for telecom gear could be a profitable business for Samsung.

TCS, Infy and Wipro Join Race for Small IT Deals

Big three giving stiff competition to mid-tier cos in \$20m deals bracket

Romita Majumdar
@timesgroup.com

Mumbai: Large IT players such as Tata Consultancy Services (TCS), Infosys and Wipro are giving stiff competition to mid-tier IT companies as they all fish for smaller deals in the \$20-million range.

Even though mega deals in the \$100-million-plus deals are still available in the market, their frequency and duration is reducing as clients seek to break down their digital needs across vendors to diversify dependencies, say analysts and industry leaders.

According to analysts, deals in the \$20-million range were traditionally the forte of mid-sized IT providers like Mindtree, Mphasis, LTI and Hexaware, among others, and are becoming the backbone of the industry and companies will have to dedicate more resources to manage this segment going forward.

Annual contract value for mega deals has gone down

from 20% of market ACV to 12% in just the past three years, said consultancy firm ISG. "Today we are pretty much competing with all other organisations including the tier-I organisations. We are seeing that there are not too many large deals, where there is visibility of revenues for around next five years," Debashis Chatterjee, chief executive Mindtree told ET in a recent interview.

Even as tier-I companies

continue to report large deals, the companies have stated in recent times that such deals take time to close and are unpredictable. According to ISG, mega deal durations have decreased 40% over the past 20 years. For instance, in the 2000s, mega deals lasted almost eight years

Chasing Deals

Mega deal durations have decreased 40% over the past 20 years, says ISG

Q4 ISG Index (Oct-Dec quarter)

2021 managed services ACV was up 16% year-on-year

A lot of that growth came from awards under \$20 million in ACV

Banks miss ₹50K-cr bad loan transfer deadline to NARCL

This is owing to delay in financial due diligence

MANOJIT SAHA
Mumbai, 6 April

The March 31 deadline, which was set by State Bank of India (SBI) within which banks were to transfer ₹50,000 crore of bad loans to the National Asset Reconstruction Co (NARCL), has been missed due to delay in financial due diligence.

A total of 38 non-performing accounts — amounting to ₹82,845 crore — were identified for transfer to NARCL, in a phased manner.

Under Phase I, about 15 accounts, totalling ₹50,335 crore, were expected to be transferred on or before March 31, State Bank of India (SBI) said in late January.

"The financial due diligence for some of the accounts took time, but now it has been completed," said a top official aware of the development. "It is a series of steps and that series of steps involves a huge number of stakeholders. RBI has to give its approval. The government has to clear the guarantees. So, all these things take time. And, if any one of these things gets stuck, then the entire process is delayed and the acquisition of assets gets delayed," the official said. Sources said the due diligence for the 14 accounts are getting over and banks will come up with binding offers in a month.

"The process took some time. For the first time, we are doing a structure like this (NARCL-India Debt Resolution Company or IDRCL). There are lots of rules and procedures to be followed. By March 31, all the capitalisation parts had to happen. Private banks needed some approvals to come in. The capital has come in and it (NARCL) is 100 per cent capitalised in accordance with the plan.

Hopefully, we will be completing the first tranche by April end," Union Bank managing director (MD) & chief executive officer (CEO) Rajkiran Rai told reporters, on the sidelines of an event on Wednesday.

Rai also said the appointment of a full-time CEO at NARCL is likely to happen soon.

Currently, P M Nair, chief general manager of SBI, is on deputation and is managing the affairs of NARCL.

Some of the loans that banks will sell to NARCL have become NPAs over eight years back. Banks have already made 100 per cent provision for these accounts. Any recovery from

“For the first time, we are doing a structure like this. There are lots of rules and procedures to be followed. By March 31, all the capitalisation part had to happen. Private banks needed some approvals to come in, and we have got the permission. The capital has come in, and it (NARCL) is 100 per cent capitalised as per the plan

RAJKIRAN RAI G,
Union Bank of India MD and CEO

these accounts will boost the profits of the banks. NARCL will acquire the identified assets on a 15:85 basis — 15 per cent in cash and 85 per cent security receipts (SRs).

These SRs, issued in favour of transferring lenders, will be secured by government guarantee for its face value.

In February, SBI had said all requisite approvals for setting up of NARCL and IDRCL, including from RBI, were received and both the companies are ready to commence business.

IDRCL has been set up to resolve NPAs. NARCL will acquire and aggregate the identified NPA accounts from banks. IDRCL — under an exclusive arrangement — will handle the debt resolution process. This arrangement will be on a 'principal-agent' basis. Final approvals and ownership for the resolution
